Mission Statement

The mission of the Metropolitan Police Department, City of St. Louis is to protect, serve and assist citizens when conditions arise that may affect the well being of the individual or the community. Cooperating with others in the community, officers will work to prevent and detect crime, protect life and property and achieve a peaceful society, free from the fear of crime and disorder. Members of the Department will strive continually for excellence and maintain the peace through service, integrity, leadership and fair treatment to all.

The St. Louis Police Explorers
at the 2016 National Law Enforcement Explorer Conference in Flagstaff, Arizona

Law Enforcement Code of Ethics

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force of violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself to my chosen profession...law enforcement.

Core Values

SERVICE | INTEGRITY | LEADERSHIP | FAIR TREATMENT TO ALL

Message from Mayor

To the St. Louis Community:

The safety of St. Louis residents and visitors is my top priority. I am very proud of the tenacious work our officers do for our City morning, noon and night, day in and day out. Because of it, crime is the lowest it has been since the 1960s and has been cut in half over the past 10 years. But, crime of any kind -- especially violent crime, which remains stubbornly high in several of our neighborhoods -- threatens the fabric of our entire community, so until everyone in every neighborhood can live, work and play in a safer environment, we have more work to do.

Building and maintaining trust between the community and law enforcement is essential in reducing crime and creating stronger neighborhoods. SLMPD and their partners in City government continue to make significant progress toward that goal, while increasing the use of technology in crime reduction operations. From license plate readers and the Real Time Crime Center to Operation Polar Cops and additional foot, bike and mounted patrols, the Department is diligently working to enhance safety while bolstering community engagement. Part of those efforts include putting more officers in areas that need their attention the most, followed by other City services, like boarding up vacant buildings, removing excess refuse and debris, and ensuring that all street lights are in working order to help address quality of life issues in our neighborhoods. It is all part of our PIER Plan, which focuses on prevention, intervention, enforcement and reentry measures.

My administration also is dedicated to ensuring that our officers receive the support, training and resources they need to do their jobs safely and effectively. That includes employing new technology, along with crisis intervention, civil disobedience training, and increasing salaries.

The following 2016 Annual Report shows where we have been successful, and also indicate where our challenges are. It takes everyone to make a difference, and I thank you for your commitment to building a more resilient St. Louis.

Sincerely,

Francis G. Slay
Mayor

Message from Police Commissioner

Dear Citizens:

As you read the 2016 Annual Report, you will get a glimpse into the hard work the men and women of the Metropolitan Police Department do each and every day. This report provides an understanding of the dangers they face through pages of data and statistics which summarize crime in our city. However, more importantly, you will read about the various programs and initiatives we have implemented in the past year to better engage our community. We know that police officers must make arrests in order to make our city a safer place. Making a positive impact and building relationships with our citizens is just as important.

This year, many of our citizens had a chance to interact with some of our best police officers as they were enjoying an ice cream treat served out of our newest community engagement tool – Operation Polar Cops. Although light-hearted and fun in nature, Operation Polar Cops has started a critical conversation between the police and the community and is truly a display of the department's investment in community engagement.

We must continue to make investments like this Operation Polar Cops in St. Louis, with outreach programs to connect with our youth and with partnerships to harness the power of civic leadership. Also new this year is the SLMPD Mobile app, an application that lets you interact with city government and the police department in an innovative and convenient way. SLMPD Mobile gives citizens a way to report crime, stay informed and even request city services.

Crime reduction has always been a collaborative effort by both law enforcement and the community, and it must be even more so in the years ahead. The St. Louis Metropolitan Police Department is a model agency, known and admired throughout the nation, directly due to the personal qualities of the men and women who work here.

Very truly yours,

Col. Samuel D. Dotson III
Police Commissioner

Community Matters: Engaging with the Citizens We Serve

Operation Polar Cops

On June 16, 2016, the St. Louis Police Foundation assisted the Community Engagement/Organizational Development Division (CEODD) in purchasing an ice cream truck. This project, entitled “Operation Polar Cops”, was created after the CEODD reached out to Boston Police Department, who shared their overwhelming success with their own ice-cream truck community engagement program, “Operation Hoodsie Cup”. In St. Louis, we sometimes see lack of cooperation by citizens in high-crime neighborhoods, stemming from distrust in law enforcement. The Boston Police Department found a simple act of kindness, like police giving children free ice cream on a hot day, went a long way towards mending relationships.

After the truck was purchased, Switch, an experimental marketing agency headquartered in St. Louis, designed the exterior of the truck at no cost. Prairie Farms Dairy donated over 6,000 units of ice cream treats and frozen novelties. After the initial donation, Schnuck’s Markets, Inc. agreed to allow the department to purchase future products at a discounted rate. Operation Polar Cops kicked off on July 26, 2016. Since its inception, the CEODD continues to receive numerous requests for the ice cream truck to attend various community events. In 2016 alone, the CEODD participated in over 50 community events with overwhelmingly positive feedback.

Through Operation Polar Cops, officers have distributed over 21,000 units of ice cream/novelties, and in turn, created countless positive interactions with kids and adults alike. Operation Polar Cops allows the Metropolitan Police Department to not only engage the community, but also to partner with outside businesses and organizations to gain trust among our citizens. The program provides citizens an opportunity to meet and interact with our officers in a fun and approachable environment. Operation Polar Cops has started a critical conversation between the police and the community and is truly a display of the department’s investment in community engagement.

Community Matters: Engaging with the Citizens We Serve

Adopted Family

In September of 2016, North Little Rock Police Officer Tommy Norman visited the Metropolitan Police Department and participated in activities with the Community Engagement/Organizational Development Division (CEODD). Officer Norman has gained national and international attention for his unconventional methods of law enforcement, for his focus on community policing and use of social media to tell his story. Officer Norman shared his views and strategies regarding his success in engaging his own community and how it could be implemented in St. Louis.

During Officer Norman's trip to St. Louis, he visited an old friend from North Little Rock, Timothy "Tim Tim" Johnson, a 5-year old with dreams of becoming a police officer. Tim Tim and his three older brothers, Nehemiah (7-years old), Jeremiah (10-years old) and Elijah (12-years old) along with their mother, Sharee, had to leave North Little Rock due to a family illness. The four boys and their mother immediately formed a bond with the officers of the CEODD and were "adopted" by the Bureau of Community Affairs to assist them in this strenuous time of transition. The Bureau raised money for the Johnson family during the holiday season. The CEODD, along with an unnamed benefactor, was essential in assisting the Johnson family with school enrollment, housing, furniture and other household needs.

Citizens Academy

The St. Louis Metropolitan Police Citizens Academy is a 12-week course with three hours of instruction one night per week. Through the course, citizens gain better understanding of the inner workings of their police department through instruction on predicting and analyzing crime patterns, gang intelligence, criminal investigations and community policing techniques. Nearly all instruction is provided by commissioned police officers.

In 2016, there were 27 graduates of the Citizens Academy including several members of the St. Louis Civilian Oversight Board. Participants of the Citizens Academy come from all parts of the city. The diverse class allows participants an alternate point of view during class discussions and helps them understand that we must work together to combat crime in our city. This program promotes and enhances relations among the department, local businesses, residents and visitors. It also assures and implements community awareness of the criminal justice system and provides volunteer support for law enforcement activities that impact the community.

L.E.O. - Ladies Encouraging Others

Since its inception in 2016, the female officers of S.L.E.O., Ladies Encouraging Others, have facilitated numerous outreach programs, helping countless women and families across our city. The group was formed with the purpose of building relationships through community service with the citizens they serve. The women also wanted a platform for female police officers to be spotlighted for the dedicated work they do each day, not only serving our city, but also often going above and beyond the call of duty.

One of the group's first major projects, "Blue Bags With Swag" started as a simple idea for a purse collection and resulted in making the holidays brighter for over 150 homeless women in our city. In November 2016, L.E.O. asked department employees to donate new or gently-used purses and personal hygiene items. The officers then filled the purses with the personal items and delivered them to area women's shelters. The women were extremely thankful for the items. The program was featured by various news outlets in St. Louis.

The L.E.O. group also started a mentoring group for incarcerated female juveniles at Missouri Hills. By visiting the young women and forming relationships with them, participants' perception of law enforcement changed and they began to see the officers as role models.

Focus on Our Future: Working with Area Youth

Police Athletic League: New Programs & Camps

In 2016, the St. Louis Police Athletic League (P.A.L.) served over 780 St. Louis area children, providing them with a safe and structured environment to grow and learn. Throughout the year, P.A.L. hosted a kickball camp, two basketball camps, two baseball camps and even facilitated a fishing experience. Another great accomplishment this year was the formation of the Ashland Elementary School Intramural Basketball Program, a 10-week program held January 2016 through March 2016 for third, fourth and fifth grade students to practice and play basketball against several other schools. All camps and programs were led by volunteer police officers and retired police officers who serve as coaches and mentors.

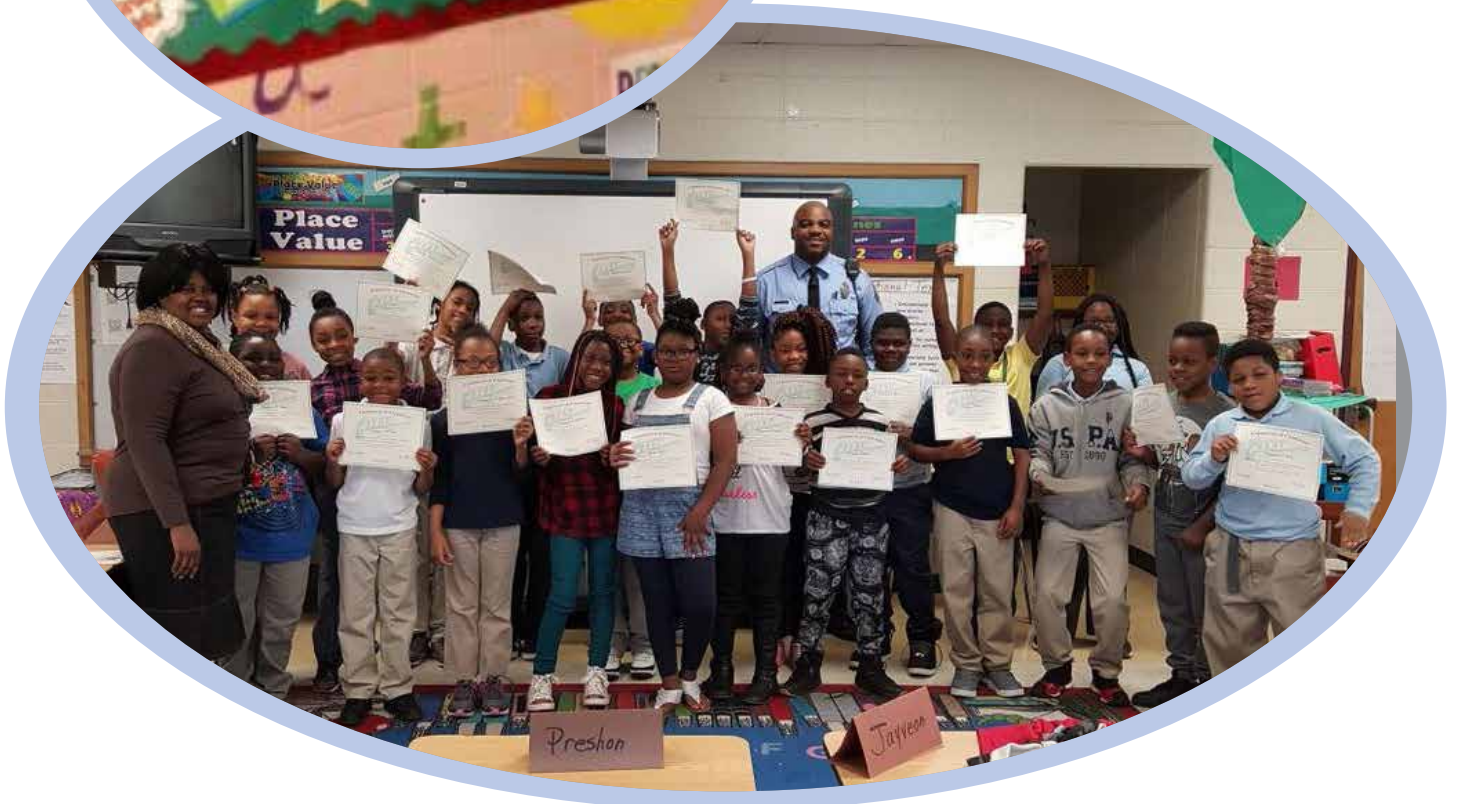

While sports are being taught, P.A.L. also teaches character. P.A.L. understands the importance for young children to have access to structured activities beyond school hours. Additionally, P.A.L. teaches children healthy behaviors and pairs them with mentors from the communities in which they live and play.

Focus on Our Future: Working with Area Youth

G.R.E.A.T. Program

In 2016, the Juvenile Division reinstated the Gang Resistance Education And Training (G.R.E.A.T.) Program in St. Louis City schools in conjunction with a new partnership with ATF. The G.R.E.A.T. Program is an evidence-based, national and international gang and violence prevention program that has been building trust between law enforcement and communities for almost 30 years. The program, which is built around school-based, law enforcement officer-instructed classroom curricula, has proven to be an effective crime prevention tool. It is designed for children in the years immediately before the prime ages for introduction into gangs and delinquent behavior.

Twenty-four officers from the department were trained to facilitate the program at 18 elementary and middle schools where they instructed on topics such as decision making, communication and anger management. In the 2016 school year, officers training to facilitate the G.R.E.A.T. program were able to reach over 700 students.

Focus on Our Future: Working with Area Youth

Gentleman's Club Outreach Educational Program

The Gentleman's Club Outreach Educational Program was launched in 2016 in conjunction with the Hogan Street Regional Youth Center. The Juvenile Division saw a need for police officers to connect with young men in our community and leave them with a positive impression. Every other week, the commander of the Juvenile Division along with another police officer visited the youth center to have conversations with the young men about what it means to make positive choices and how to be a productive citizen. As the weeks passed, participants began to open up to the officers, share their stories and have truly honest dialogue between the two groups. The conversations enabled the young men to build relationships with the officers and change their perception of law enforcement. During the Gentlemen's Club, a group of police officers visited to play two basketball games with the participants as well.

The success of the Gentleman's Club has caused the Juvenile Division to expand the program to positively affect even more area youth. For example, the "Man Up" program, which mirrors the Gentleman's Club, was launched at the Cleveland Jr. Naval Academy High School. The event was even featured in a KSDK Channel 5 news story. After Man Up was started, some female students even inquired about creating their own program to connect with female officers. The Juvenile Division is currently planning many more initiatives to assist in strengthening the relationship between the department and the youth we serve.

SLMPD Mobile: We have an app for that!

In 2016, the department introduced one of its most interactive engagement tools yet, the SLMPD Mobile app, a crime-fighting application which allows citizens to submit tips, report crime and request city services from the City of St. Louis Citizens' Service Bureau.

The department partnered with MobilePD to develop this application in an effort to increase transparency and openness with the community, with the ultimate goal of increasing crime tips from citizens. SLMPD is the second major city in the United States to launch MobilePD's new real-time citizen reporting platform, which allows citizens to submit tips to the Real Time Crime Center. Tipsters, who have the option to be anonymous, can include their GPS location, text a photo and have a secure two-way chat with officers in our Real Time Crime Center.

SLMPD Mobile provides a pathway for citizens to stay informed about what's happening in their community. The app alerts users about time-sensitive events like general civic emergencies, and Amber or SARAA alerts. The app also provides shortcuts that take you quickly to the department's various social media sites, including our official Facebook, Twitter, YouTube and Instagram accounts.

The app goes far beyond the specific issues of deploying police officers. This Citizen's Service Bureau feature gives users access to request municipal public services such as animal control, fire inspection, parks, recreation centers, recycling, permits, street lights, trash removal, tree trimming, water service and more.

The SLMPD mobile app is free to download on the iOS App Store and Google Play Marketplace.

HOMICIDE

HOMICIDE
PRESENTATION
2016

Executive Summary - Homicides

Homicide Count:

- 2016 Homicide Total – 187 (one less than 2015)

Homicide Demographics:

- 84% of the victims were Male.
- 85% of the victims were African-American.
- 52% of homicide victims were aged 19 – 32.
- 34% of homicide victims were African-American males between the ages of 17 and 28.
- 166 (88%) of victims had a criminal history (vs. 91% in 2015).
- 91% Of Known Homicide Suspects have an arrest history (vs. 97% in 2015).

Geographic Areas Affected

- 28 of homicides occurred in District 6. 28 of homicides occurred in District 5.
- 75 of homicides occurred in half of the city's 6 districts.

Top Homicide Circumstances:

- Unknown—56% (59% in 2015)
- Argument/Fight—18% (13% in 2015)
- Retaliation—3% (9% in 2015)
- Robbery – 9% (9% in 2015)
- Drugs – 5%

Typical Homicide Summary

- **Homicide Victim & Suspect**
 - Male
 - African – American
 - 17 – 29 years of age
 - has a criminal history

Counting Homicides: Temporal Analysis

	2015	2016	% Change
January	16	15	6%
February	8	4	-50%
March	10	18	80%

October	15	12	-20%
November	12	12	0%
December	8	16	100%
Grand Total	186	187	1%

Counting Homicides:

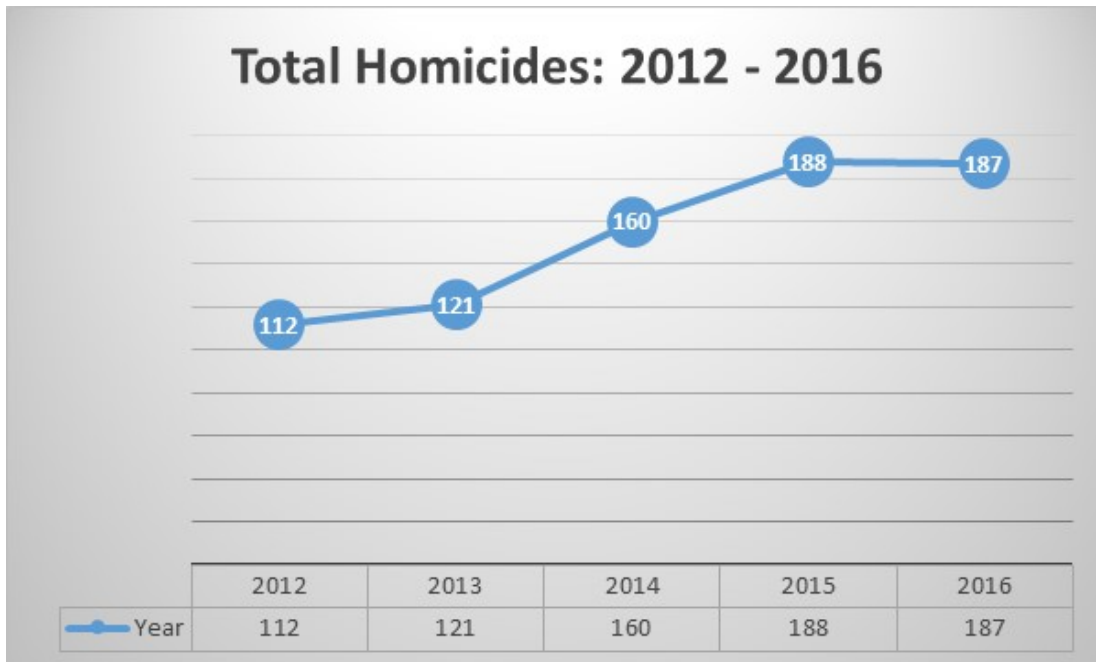

The F.B.I. Uniform Crime Reporting Program (UCR) establishes all guidelines and procedures for the submission of crime data to the State UCR Program Coordinator (State Police). Murders are counted at the time that Homicide Investigators have determined that, after investigation, an intentional killing of a human being by another has occurred.

Clearances of murders occur when at least one person suspected of committing the murder is taken into police custody for prosecution. Clearance is counted by the month that the suspect is taken into custody. While the official homicide statistics, shown in the table on this page, counts homicides by the date they were coded (for example, if a person is fatally injured in one year, but succumbs to their injury in the following year, the homicide is officially counted in the year of death, and not the year of injury), the remainder of statistics in this report will not reflect those numbers, but rather only reflect those murders that *occurred* within that calendar year.

It is important to understand that UCR allows adjustments (e.g. clearances, reclassification, unfounded, etc.) from previous submitted months to be made the month that the adjustment becomes known to police.

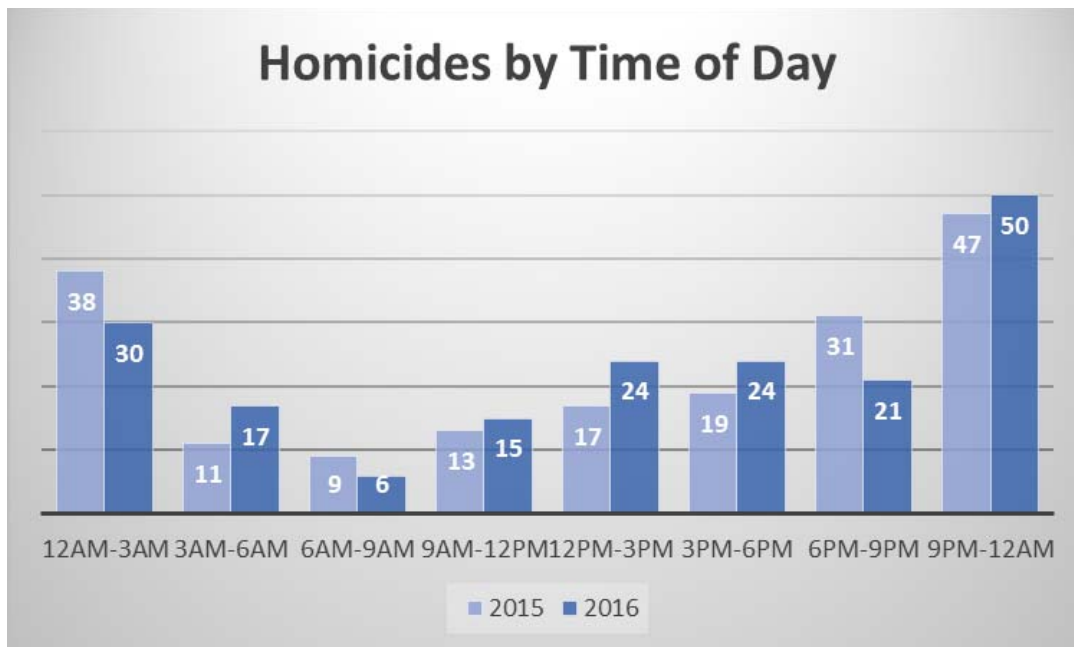

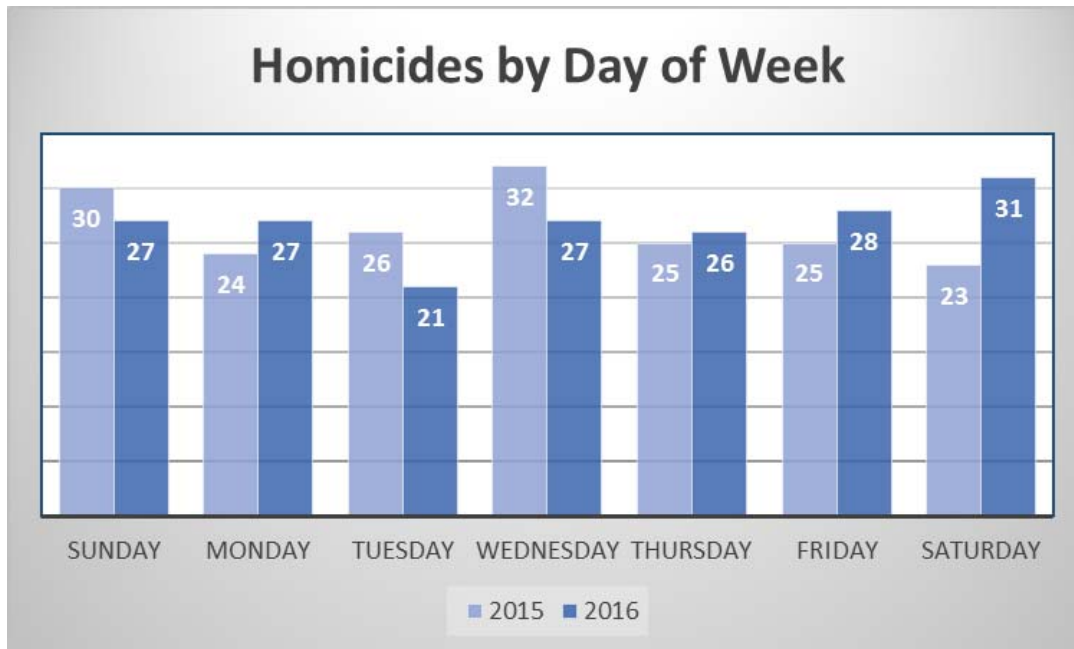

Counting Homicides: Temporal Analysis

RECAP

- The graphs above show the monthly, and annual, City of St. Louis homicide numbers since 2012.
- Crime victims may succumb to their injuries months or years after the incident data. These figures include those victims who were injured in one year and died in another.
- While many crimes show seasonal changes, in the City of St. Louis, it does not appear that seasonality has direct effects on homicide.
- While we are able to look at homicides by both the date the offender was arrested, regardless of when the homicide occurred (Month Coded), and by the date the homicide occurred, regardless of when the arrest was effected (Date of Occurrence) the official statistics, per UCR rules, are the Month Coded numbers.

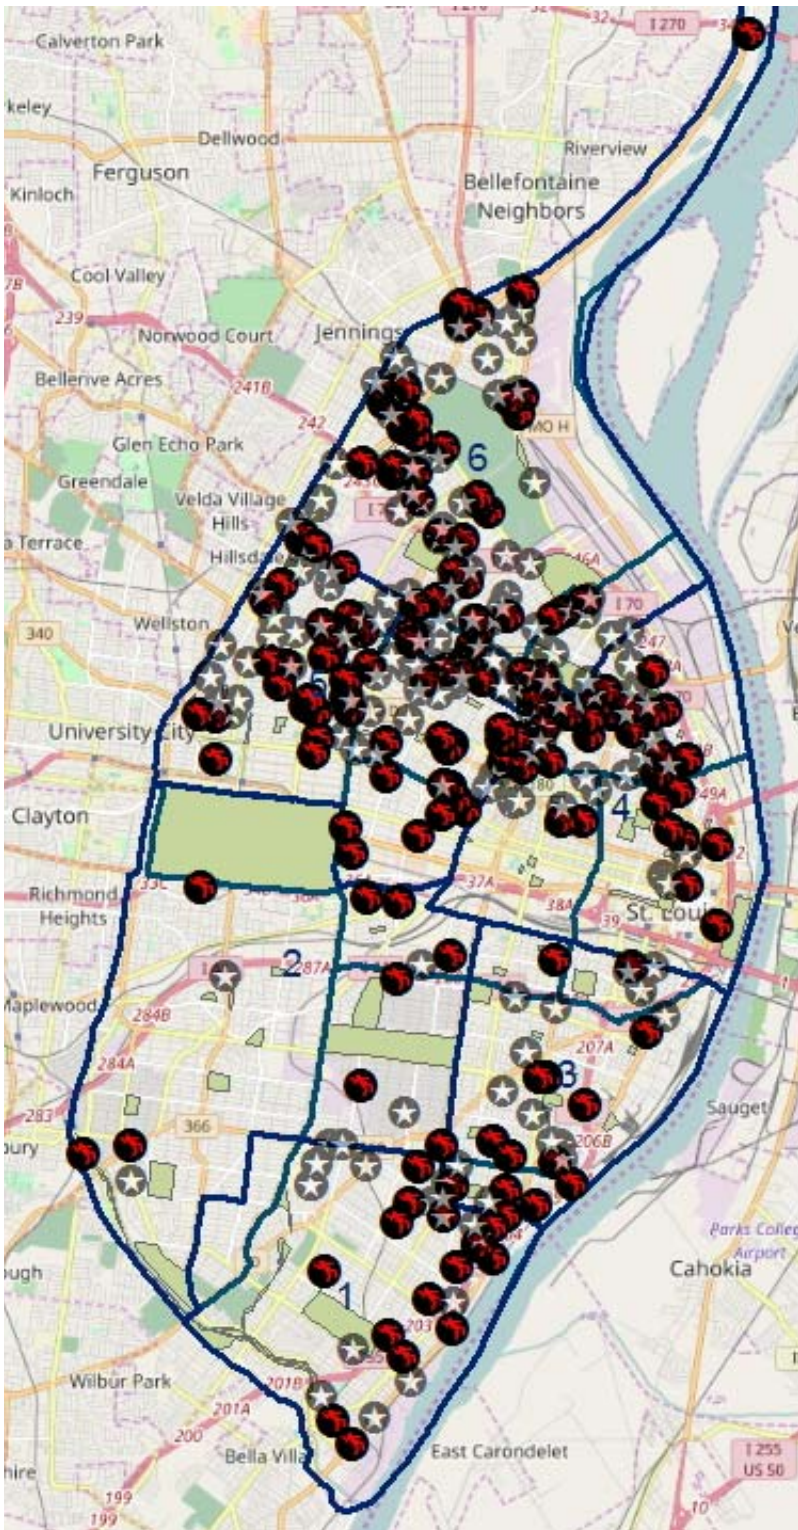

Counting Homicides: Temporal Analysis

RECAP

- As in previous year, no particular day of the week stands out.
- While there was no sharp difference in day of week, there is a clear pattern when it comes to time of day, with the period between 9 pm and 3 am being the most likely hours for a homicide to occur, totaling 43% of this previous year's homicide.

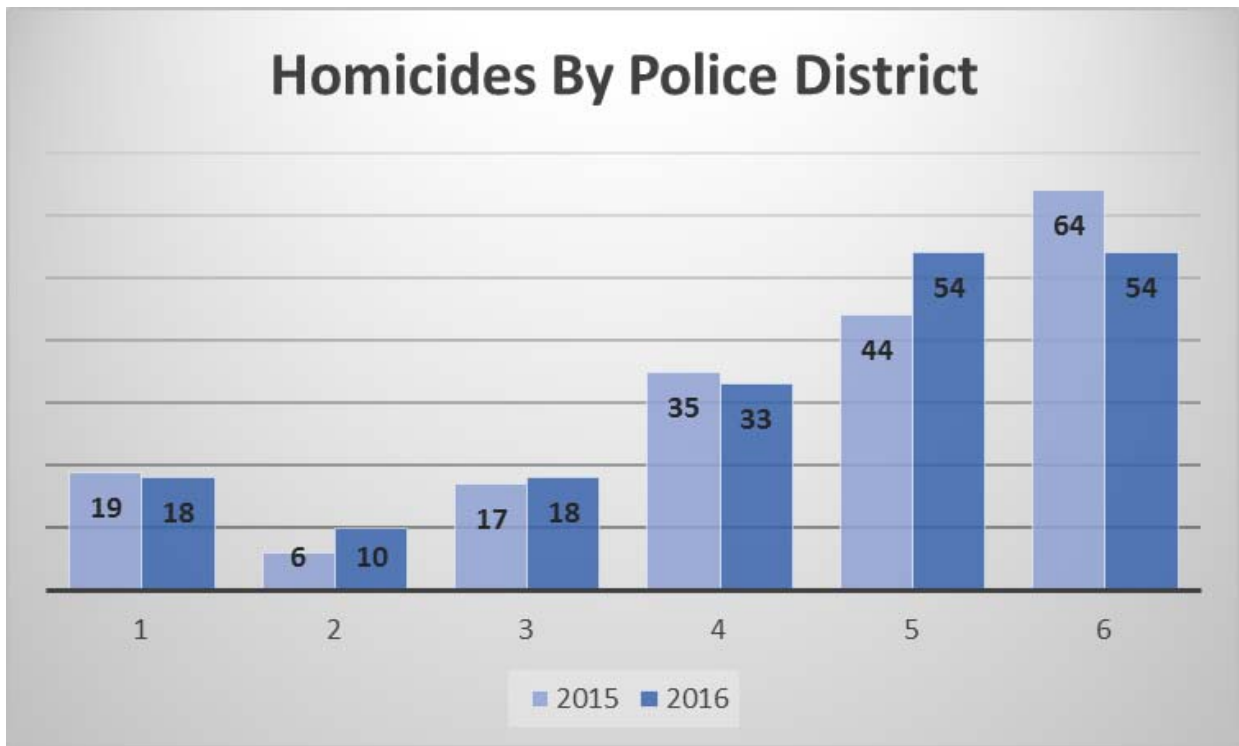

The Geography of Homicide

RECAP

- The Map is an illustration of the locations where homicides have occurred within the City of St. Louis over the previous two years.
- As the map clearly illustrates, homicides within the City of St. Louis cluster to the Northern half of the city, and just West of I-55 and South of I-44 in South St. Louis.

The Geography of Homicide

RECAP

- The number of homicides per District remains fairly consistent from year to year within each District, with the notable exception of the rise in the 6th for 2015.

Weapon Analysis

	2015	2016	% Change
FIREARM	179	173	-3.47%
OTHER	4	4	0%
BLADED WEAPON	2	8	75%
BLUDGEONED	1	2	50%
STRANGULATION	1	0	100%
VEHICLE	1	0	100%

RECAP

- The graph and table above show City of St. Louis homicide trends as they related to weapons used from 2015 and 2016.
- The vast majority of homicides were committed with a firearm.
- While 9 mm was the most popular caliber of firearm used in homicides for both years, it comprised only 33% of all firearm homicides in both years.

Gang Involvement: Homicide Victims and Suspects

RECAP

- Known gang involvement is low for both victims and suspects.
- Gang involvement ranged from 11-13% for suspects in this time period, and between 10-11% for victims.
- This graph ONLY represents those that have a known and documented gang affiliation, and does not include any informal or non-"gang" groups or crews, which have become more common in recent years.

Victimology: Age, Gender, Race/Ethnicity, & Toxicology

Race/Ethnicity of Homicide Victims

Victims were largely MALE, with 84-86% of victims over the previous two years being MALE.

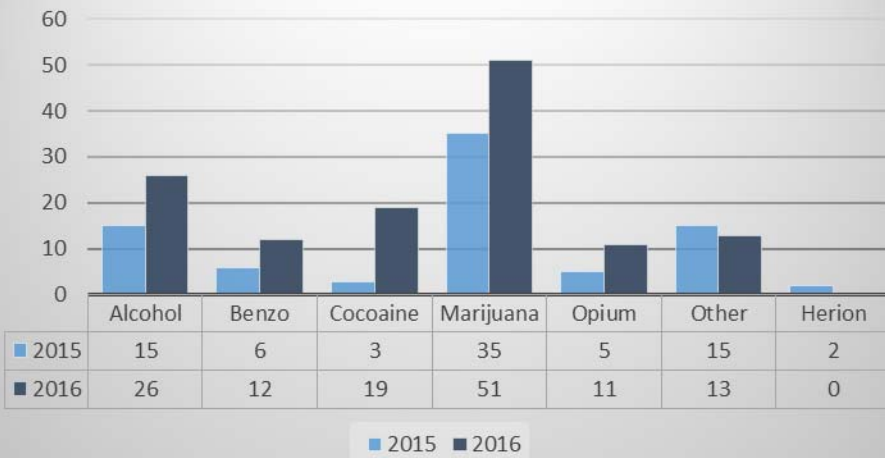

Victims were also largely City residents with 71-74% being from the City.

As the tables show, victims were largely African-American as well.

Average AGE varies widely. In 2012 it was 30, while in 2013 the average age was only 19, in 2014 it was 29, and in 2015 it was 30. In 2016 it was up to 32.

47-50% of victims were under the influence of some substance in 2015 and 2016.

Toxicology of Homicide Victims

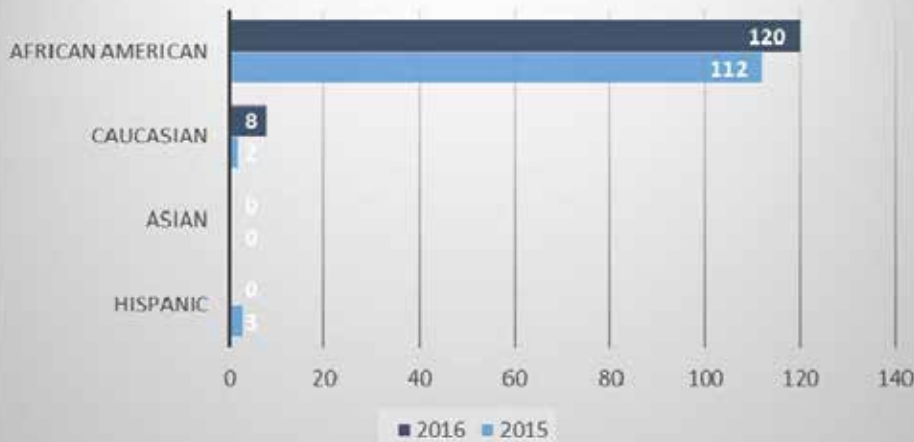

RECAP

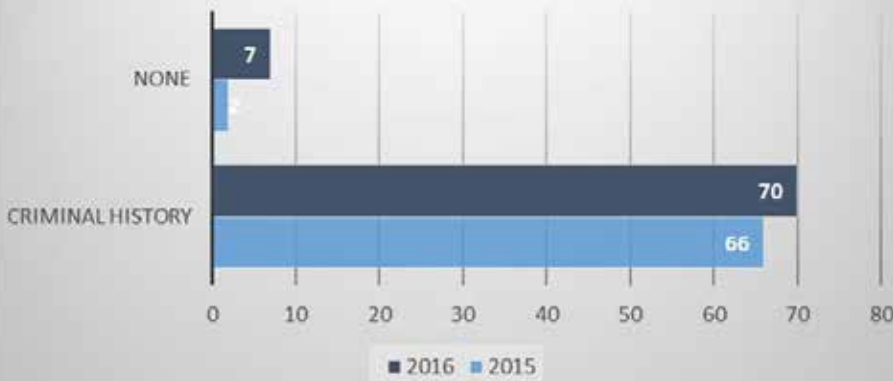

- Over 90% of homicide victims in both 2014 and 2015 had a criminal history.

Suspectology: Age, Gender, Race/Ethnicity, & Toxicology

Race/Ethnicity of Homicide Suspects

Criminal History of Known Homicide Suspects

Suspects were largely MALE, with 97% in 2015 and 99% in 2016 being MALE.

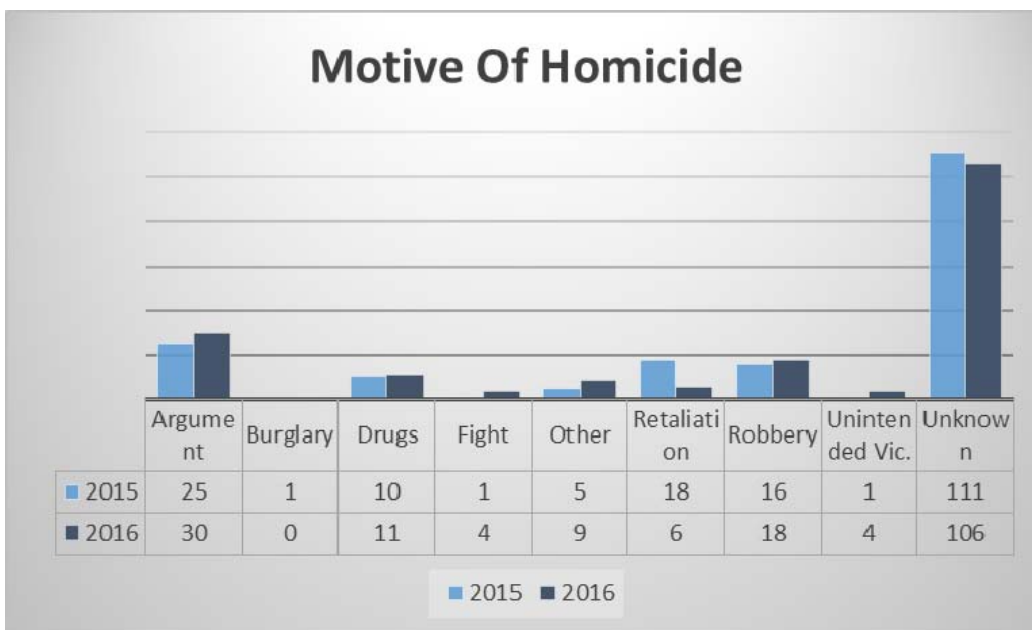

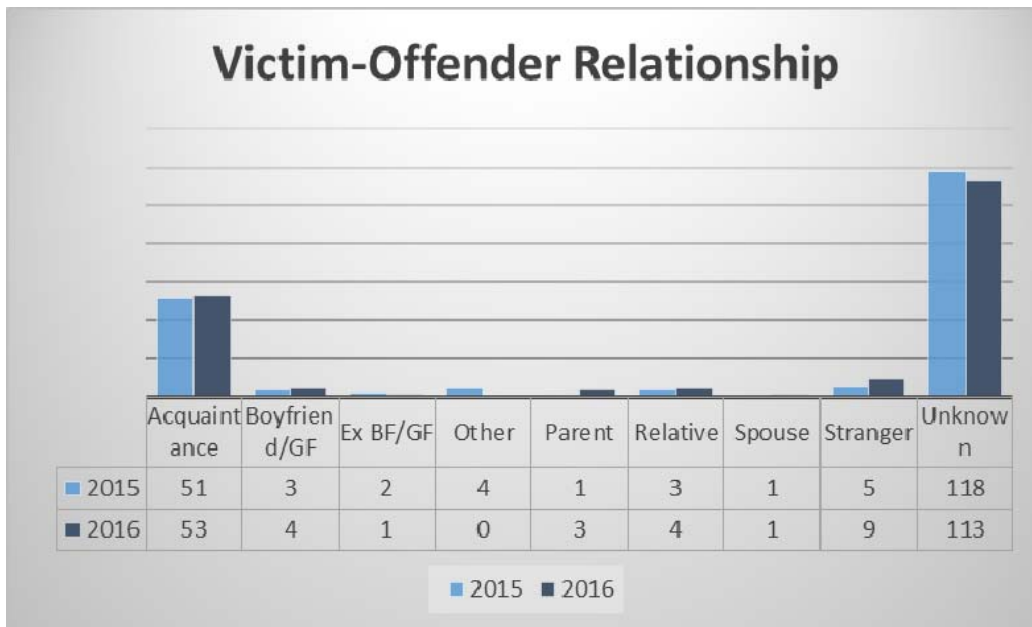

As the tables show, victims were largely African-American as well.

Average AGE doesn't vary as widely in Suspects as it does with Victims. In 2013, it was 31, while in 2014-2016 the average age was 28.

Toxicology cannot be determined on Suspects as most are not arrested at the time of the incident.

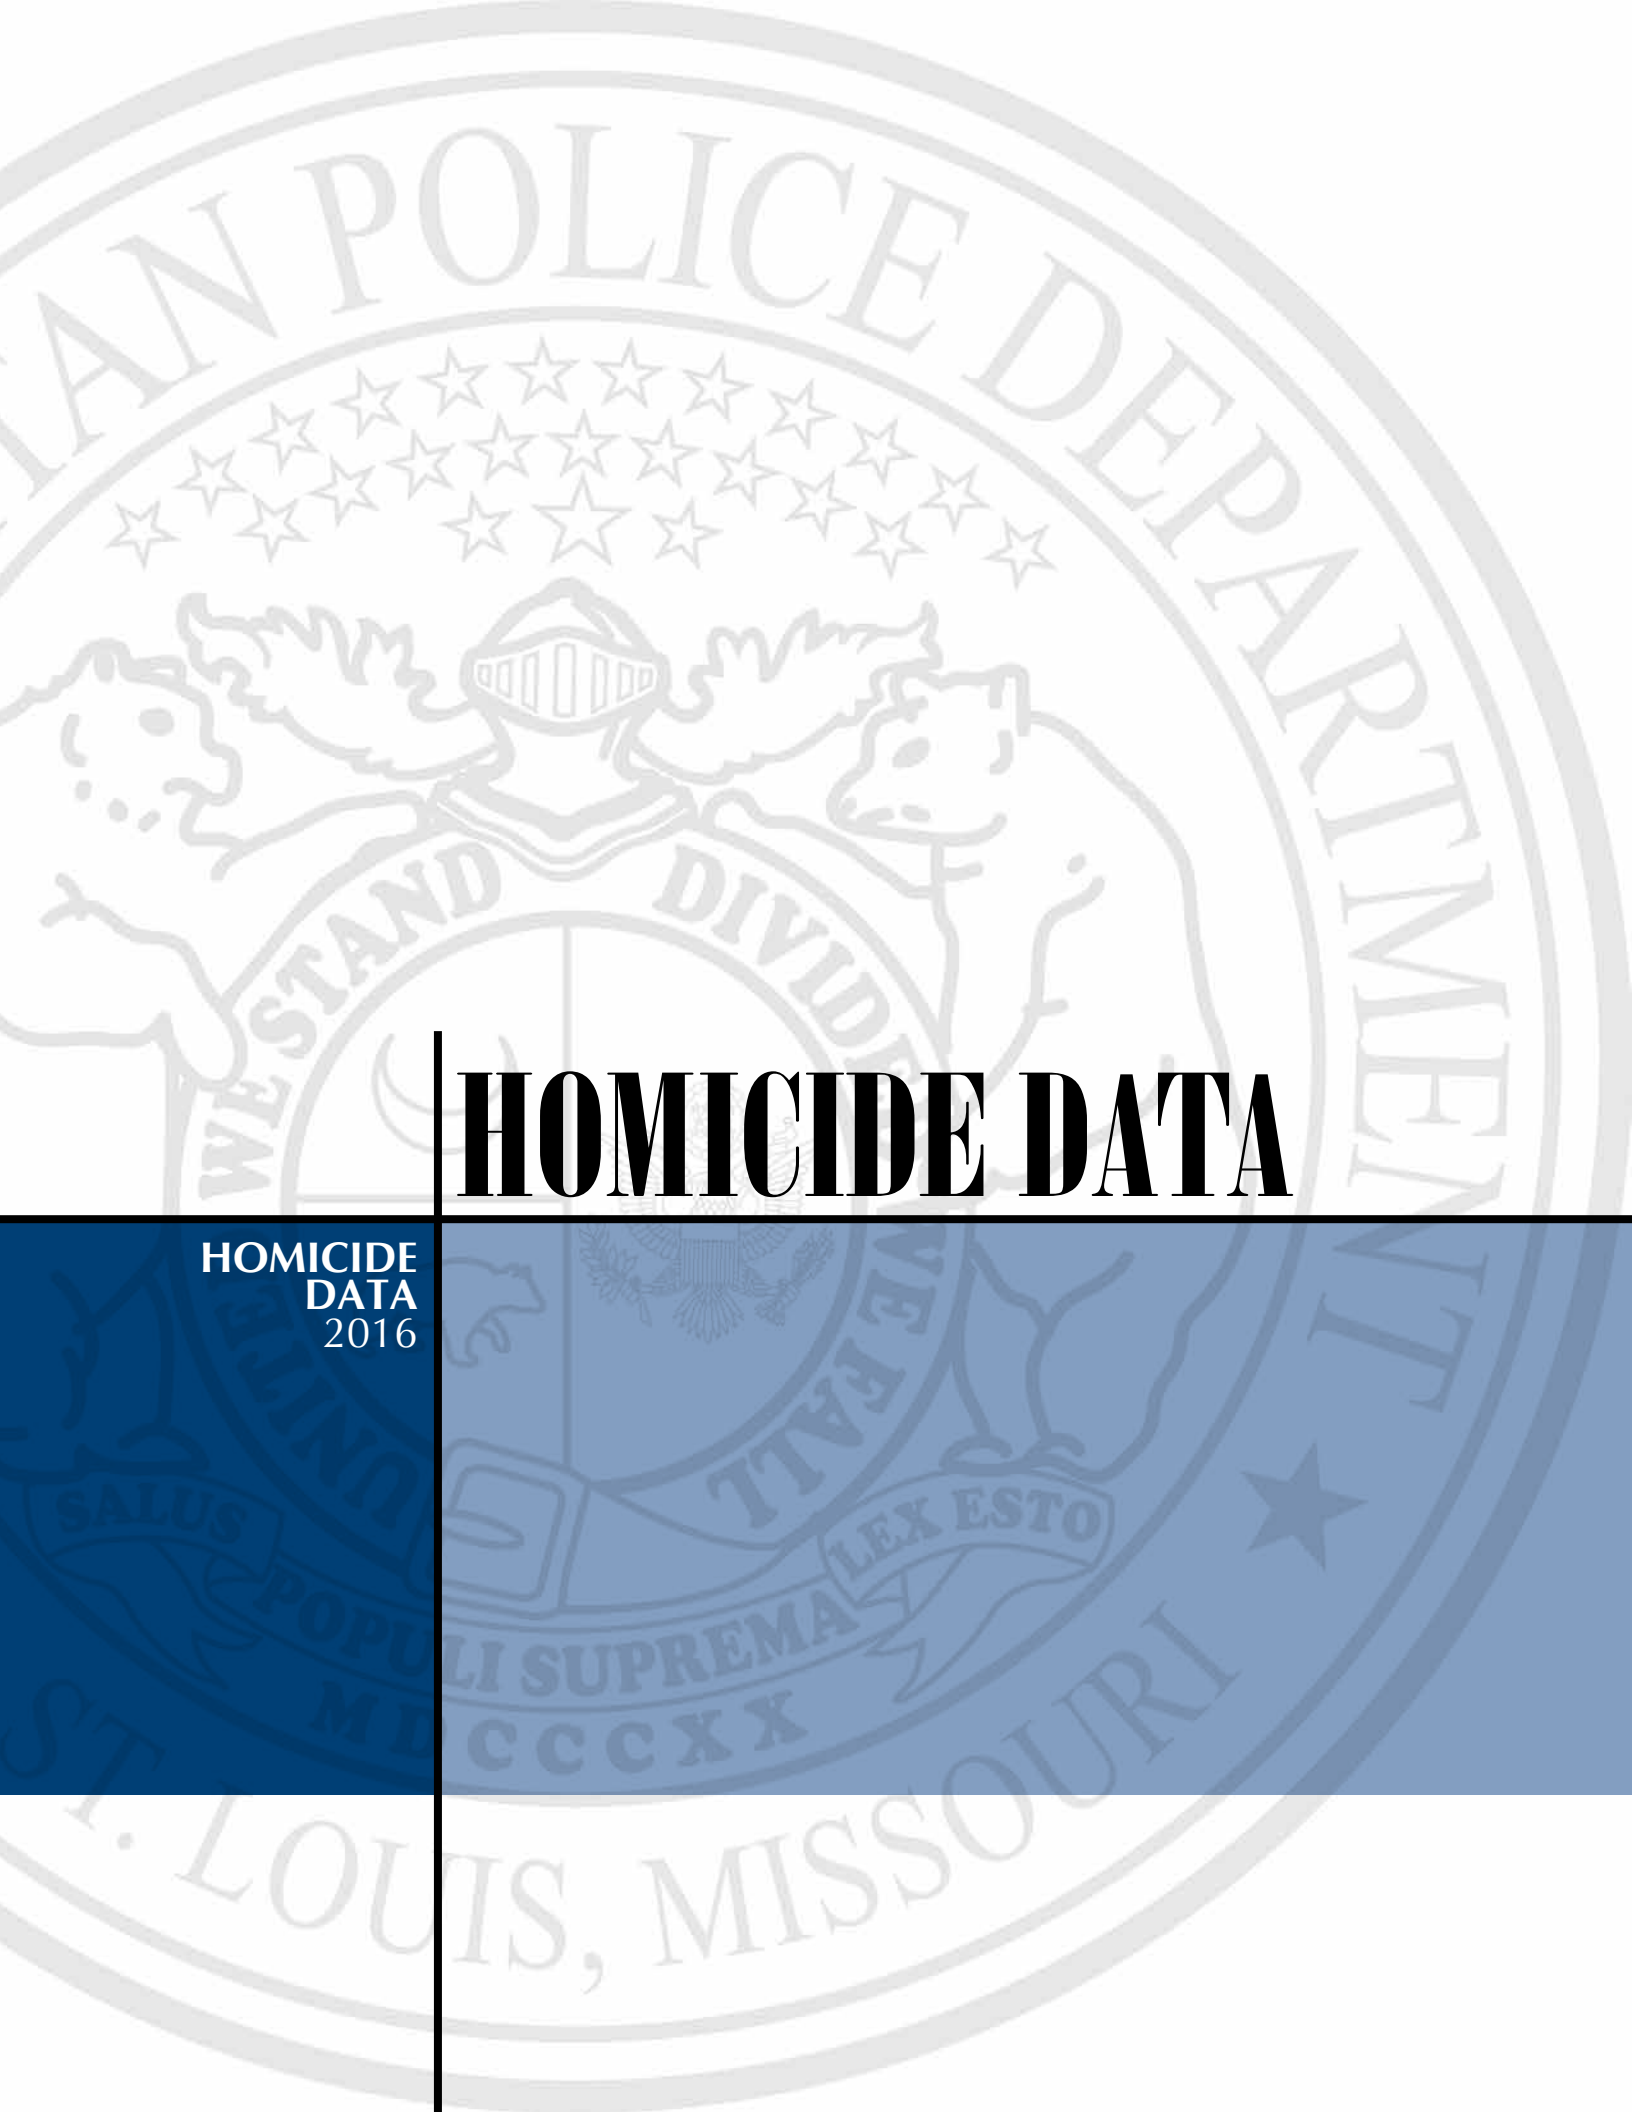

Suspect criminal history is fairly stable between years with 97% in 2015 and 91% in 2016 having a criminal history.

Victim/Offender Relationship & Homicide Circumstances

RECAP

- The Graphs above show the relationship between victim and offender and the motive of the homicide, when known. Most are unknown as many are unsolved, and even when cleared, motives and relationships do not always present themselves clearly.

Explanation of Complaint Dispositions

Sustained: Investigation disclosed sufficient evidence to support the allegation of the complaint.

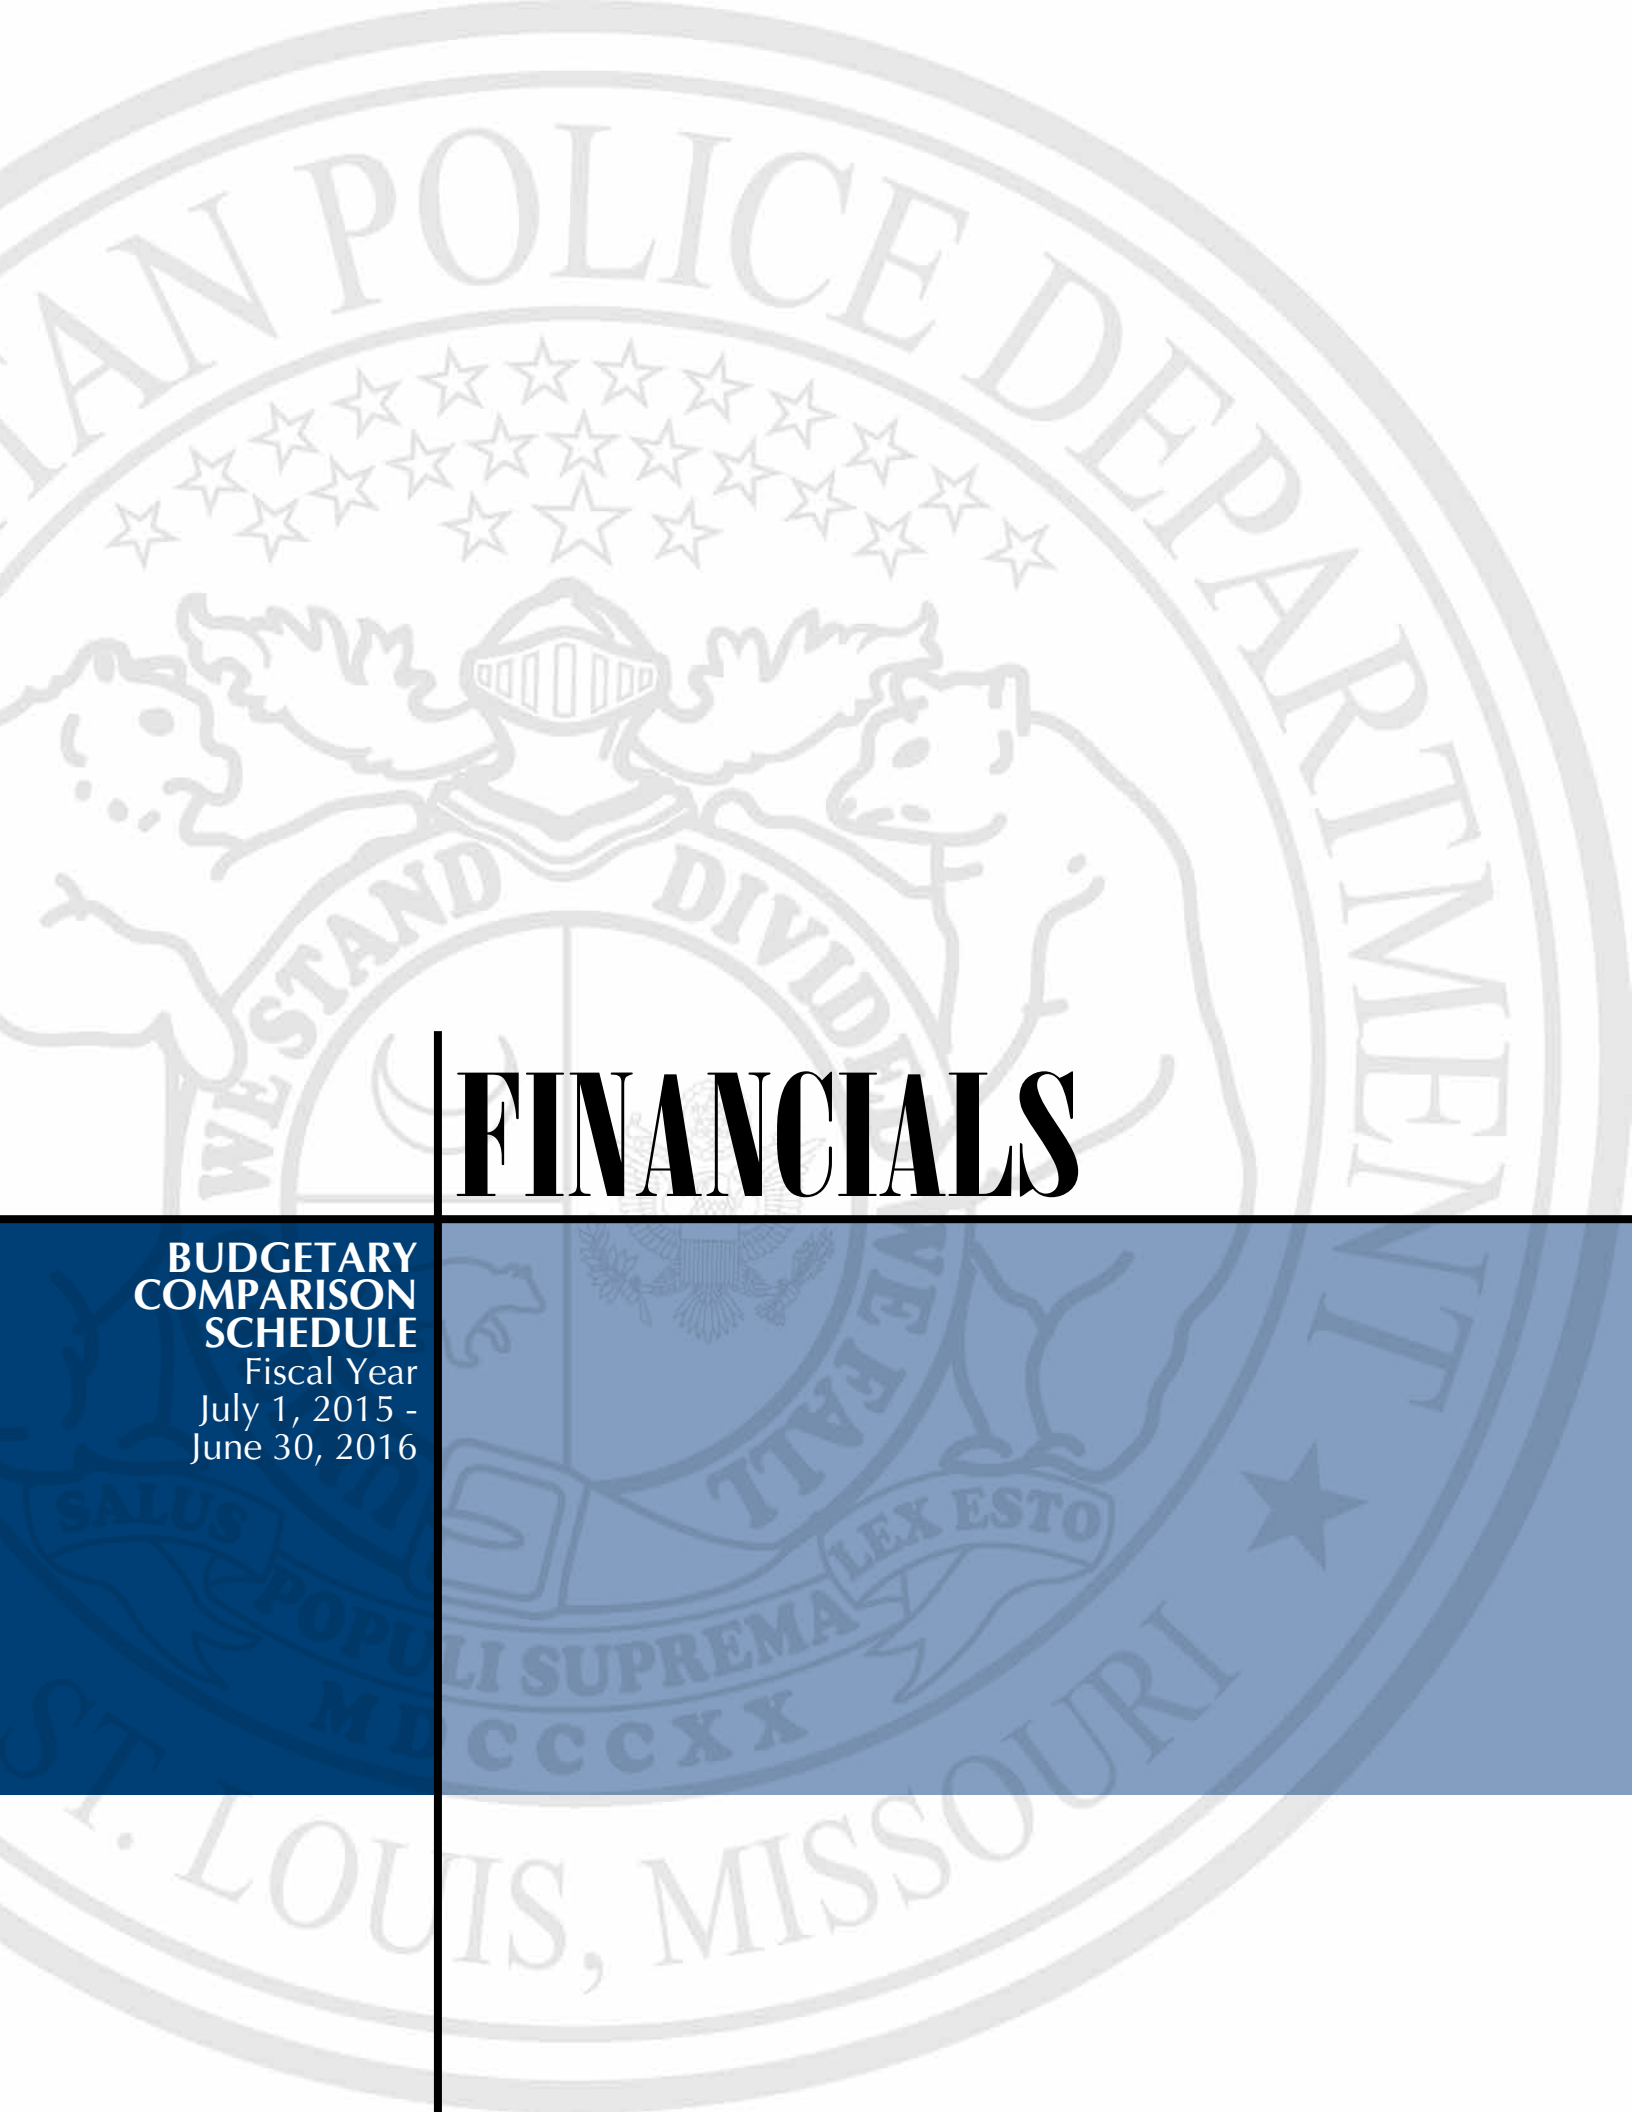

Not Sustained: Insufficient evidence available to either prove or disprove the allegation.

Unfounded: The complaint was not based on facts, as shown by the investigation, or the incident complained of did not occur.

Exonerated: The actions complained of did occur, but the investigation disclosed that the actions were reasonable.

Withdrawn: Complainant withdrew complaint and the investigation was terminated.

Mediation-Resolved: Both parties voluntarily resolved the complaint through confidential/constructive mediation.
