Mission Statement

The mission of the Metropolitan Police Department, City of St. Louis is to protect, serve and assist citizens when conditions arise that may affect the well being of the individual or the community. Cooperating with others in the community, officers will work to prevent and detect crime, protect life and property and achieve a peaceful society, free from the fear of crime and disorder. Members of the Department will strive continually for excellence and maintain the peace through service, integrity, leadership and fair treatment to all.

Law Enforcement Code of Ethics

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force of violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself to my chosen profession...law enforcement.

Core Values

SERVICE | INTEGRITY | LEADERSHIP | FAIR TREATMENT TO ALL

Message from Mayor

To the St. Louis Community:

The safety of our residents, businesses and visitors is my top priority. I am very proud of the intensely difficult work the men and women of our police department perform every day. As a society, we ask them to deal with our most difficult problems. I sincerely thank every officer for meeting that challenge every day.

On December 28, 2017, 30-year veteran John Hayden was named 35th Police Commissioner of our St. Louis Metropolitan Police Department. It was a proud day for me, Public Safety Director Jimmie Edwards, and for our community. Chief Hayden leads a diverse group of men and women who serve and protect all of us.

In November 2017, voters overwhelmingly passed Proposition P - a one-half cent sales tax. Beginning in July 2018, the Prop P funds will provide a much deserved increase in compensation and benefits. Increased pay and benefits is not only the fair and right thing to do, it allows us to attract and retain the most skilled and talented officers. Prop P was imperative, and I thank our voters for their support of our officers.

Building and increasing trust between law enforcement and our community is essential to reducing crime, especially violent crime. Our officers want and need your help and input. Often just one person coming forward with information will make the difference in preventing or solving a crime.

New initiatives are underway, including jobs and recreation programs for our your people, Chief Hayden's new mobile office, new technology, cameras, and license plate readers. My administration is dedicated to providing the training and tools our officers need to do the best job they can.

In the 2017 Annual Report you will learn many details about crimes reported in total, my neighborhood, and by district. Last year was a challenging year in many respects. This report reminds me that our officers are handling a tremendous number of calls and situations every day. This Annual Report highlights the department's progress, and provides the transparency that our community wants and deserves. Thank you for your interest and for working together with our officers to provide a safer St. Louis for all of us. Our officers are committed to the core values of: service, integrity, leadership, and fair treatment to all.

Sincerely,

Lyda Krewson
Mayor

Message from Police Commissioner

Dear Citizens:

This Annual Report is a compilation of all the statistics and initiatives of the Metropolitan Police Department from 2017. While I was not chosen to be your Commissioner until the end of the year, I value the opportunity to release this report which highlights the hard work of our employees in an effort to provide transparency and accountability.

As you look through this report, you will see crime statistics that continue to represent a challenge for our Department. However, you will also see faces of the men and women of our Department who work tirelessly day and night to address those challenges. As our Mission

Statement declares, “Cooperating with others in the community, officers will work to prevent and detect crime, protect life and property, and achieve a peaceful society...” We stay true to this mission each and every day.

During 2017, the Metropolitan Police Department expanded our community engagement efforts, placing a greater emphasis on improving community relationships. We will continue to work with the community and do our very best to serve and protect our citizens.

I want to take this opportunity to thank you for supporting our officers and civilian employees each and every day. I look forward to working diligently with you as we focus on developing innovative strategies to deter and solve crime. I know collaborative community partnerships are necessary for the success of our Department.

A handwritten signature in black ink that reads "John W. Hayden, Jr." The signature is written in a cursive, flowing style.

Colonel John W. Hayden, Jr.

2017 GCIC Annual Report

Gun Crime Intelligence Center

The SLMPD Gun Crime Intelligence Center (GCIC), which opened in early 2017, is designed to produce timely, actionable information and intelligence on violent offenders to solve existing crimes and hold active trigger pullers accountable. The SLMPD's GCIC is based on the national model, focusing on interagency collaboration between police, ATF and prosecutors to identify, investigate, apprehend and hold accountable active shooters.

Comprehensive Collection of Casings

Core component of a GCIC is the comprehensive collection of shell casings from every recovered crime gun and crime scene. It is essential that casings are collected for every incident to be able to connect multiple shootings; a casing collected during a property damage or shots fired call can solve a violent crime.

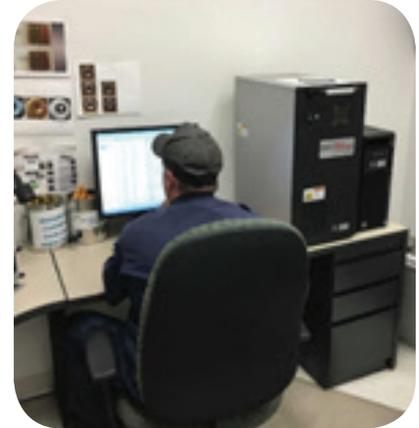

2017 GCIC Annual Report

NIBIN (National Integrated Ballistics Information Network)

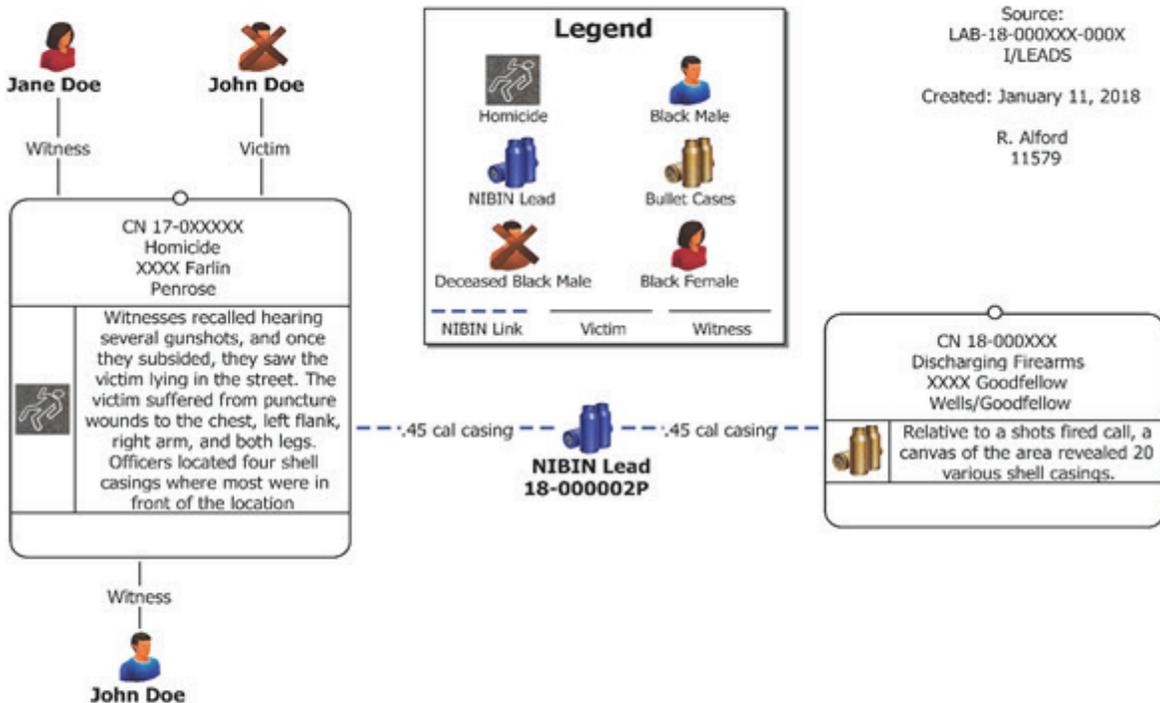

The SLMPD Gun Crime Intelligence Center (GCIC), which opened in early 2017, is designed to produce timely, actionable information and intelligence on violent offenders to solve existing crimes and hold active trigger pullers accountable. The SLMPD's GCIC is based on the national model, focusing on interagency collaboration between police, ATF and prosecutors to identify, investigate, apprehend and hold accountable active shooters.

Analysis

The lab also sends the NIBIN notification to the Crime Analysis Unit, where analysts create a chart connecting the information from each of the incidents. Detectives assigned to the GCIC get the Link Charts and follow up with the district detectives to provide the link chart and offer support. See below for a sample Link Chart take from actual incidents.

2017 GCIC Annual Report

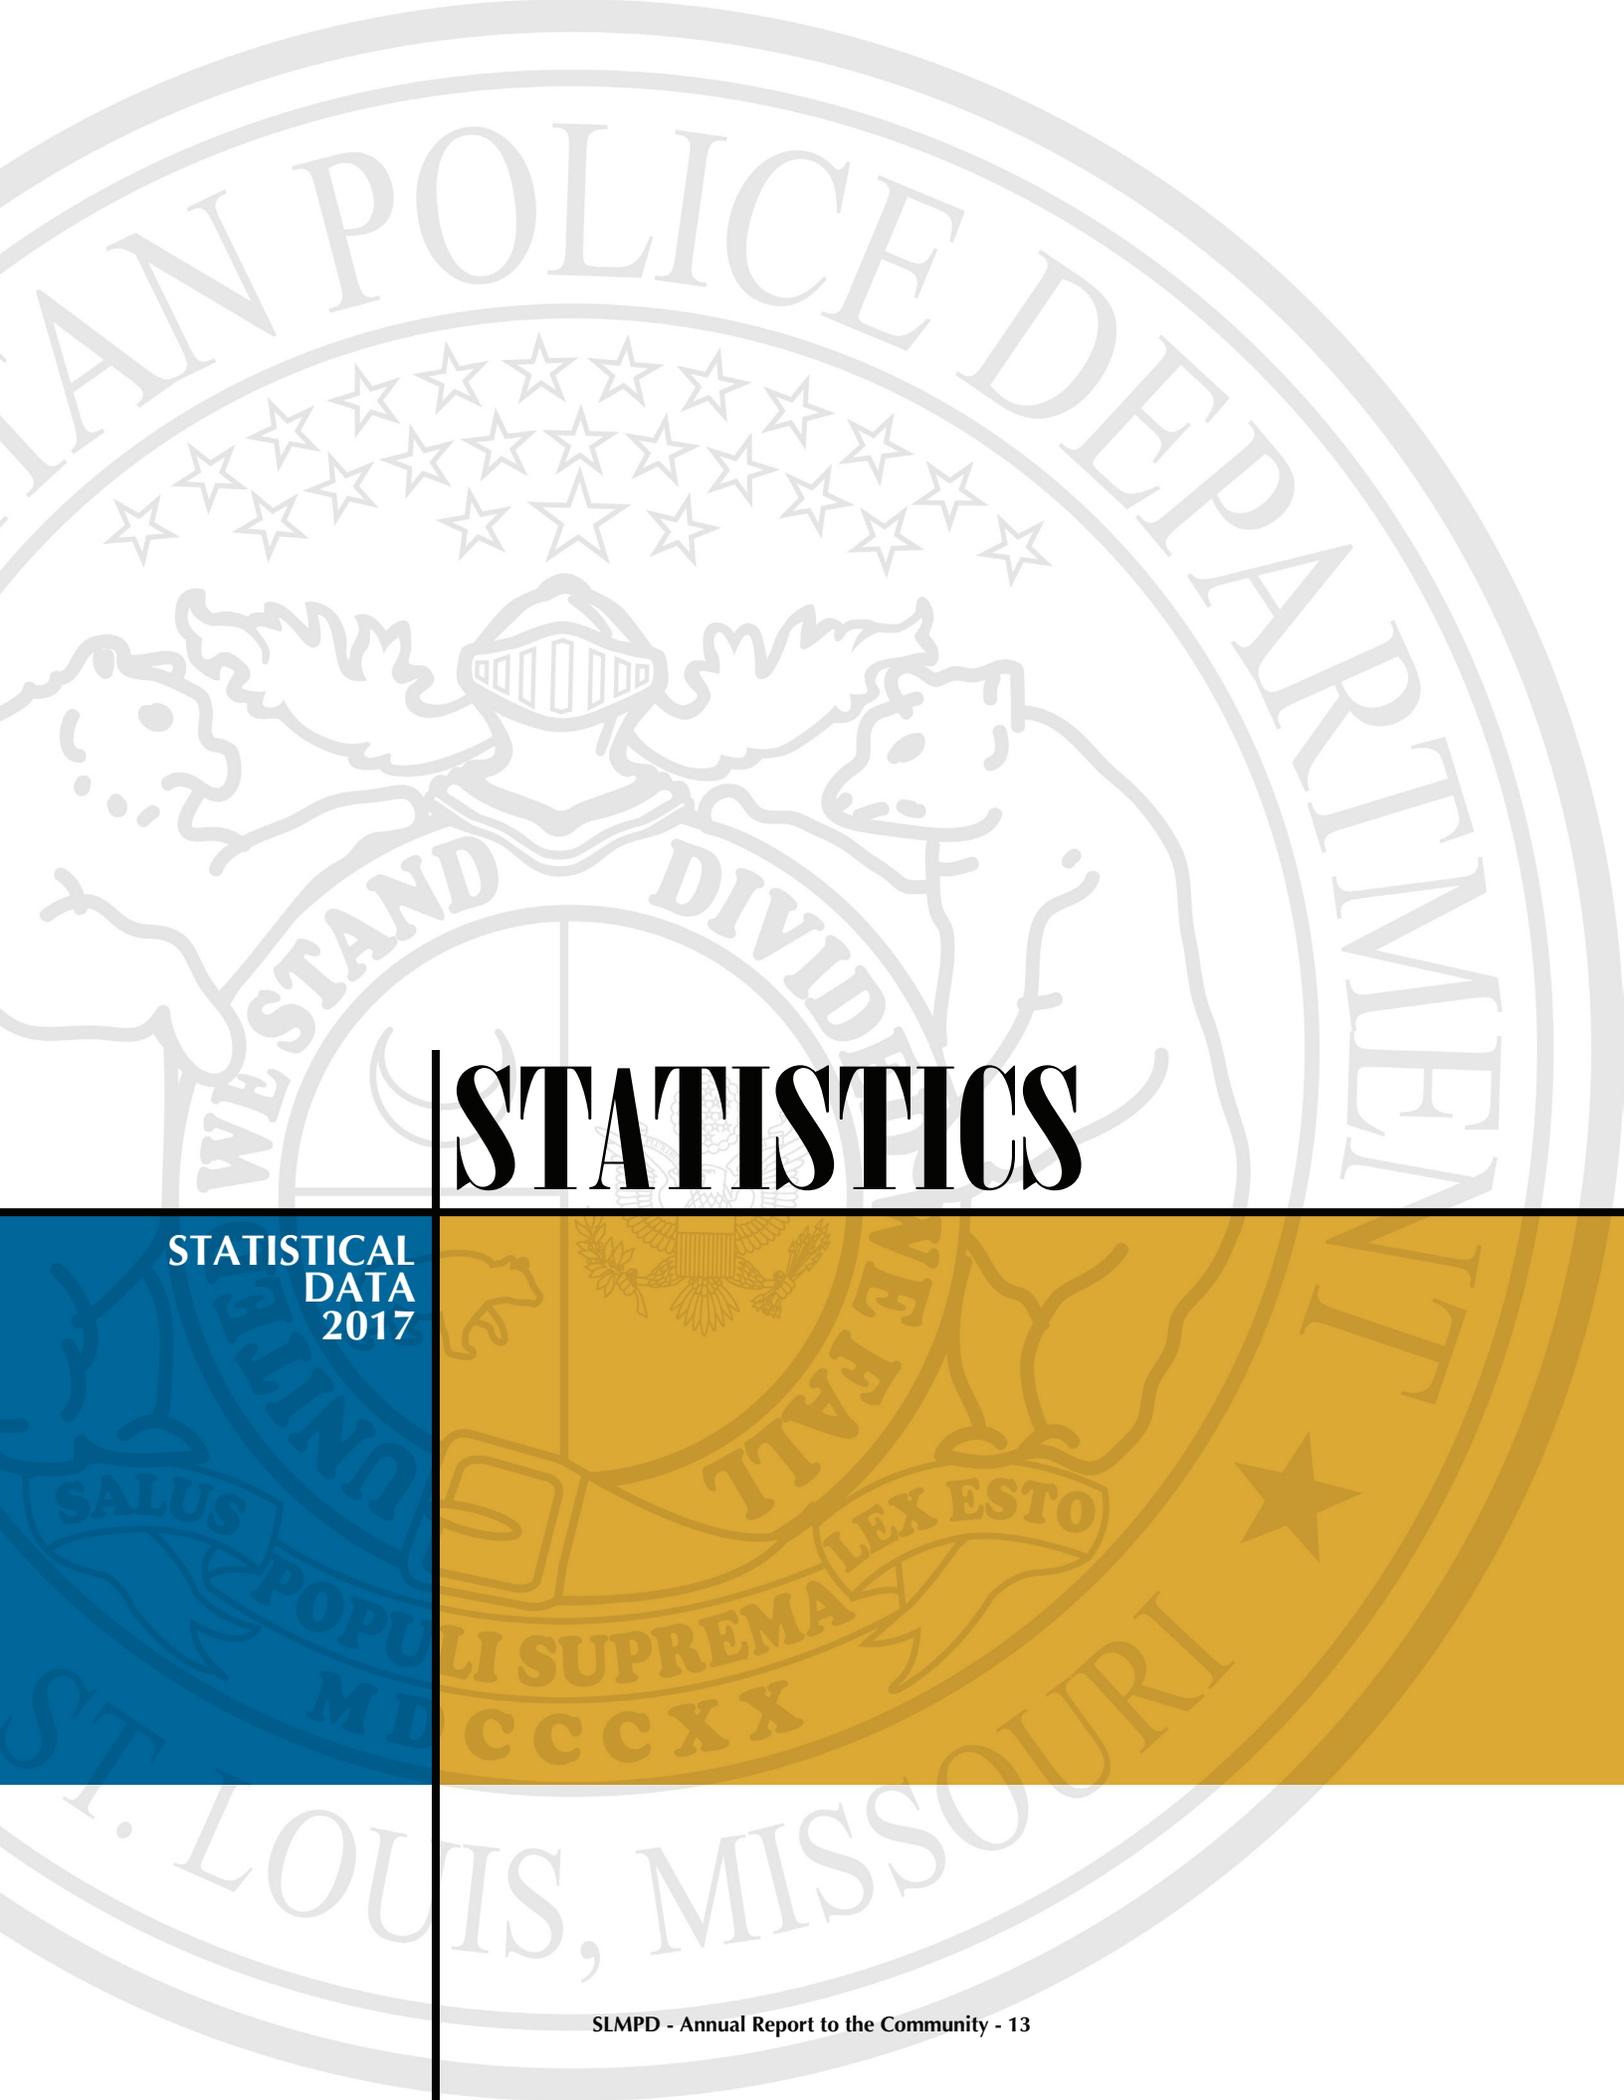

Team Follow Up

The GCIC team meets weekly and consists of Detectives, an Analyst, ATF Agents, state and federal prosecutors, Probation and Parole and a grant funded victim/witness advocate.

Police Prosecutor Partnership Grant

The Police Prosecutor Partnership grant supports the GCIC mission of reducing gun violence and focuses on five designated neighborhoods by reviewing all the gun related violence incidents in the specific areas. The Victim/Witness Advocate reaches out to these victims and witnesses to offer support including safety planning, with the goal of improving participation in the criminal justice system. Lack of victim and witness assistance is one of the primary barriers to being able to charge perpetrators of gun violence. Door hangers are also used in the designated areas to provide information and to encourage cooperation.

HOMICIDE

HOMICIDE
PRESENTATION
2017

Executive Summary - Homicides

Homicide Count:

- 2017 Homicide Total – 203

Homicide Demographics:

- 87% of the victims were Male.
- 94% of the victims were African-American.
- 40% of homicide victims were aged 20 – 29.
- 37% of homicide victims were African-American males between the ages of 17 and 28.
- 179 (87%) of victims had a criminal history (vs. 88% in 2016).
- 86% Of Known Homicide Suspects have an arrest history (vs. 91% in 2016).

Geographic Areas Affected

- 37% of homicides occurred in District 6. 29% of homicides occurred in District 5.
- 84% of homicides occurred in half of the city's 6 districts.

Top Homicide Circumstances:

- Unknown—62%
- Argument/Fight—15%
- Retaliation—10%
- Robbery – 6%
- Drugs – 5%

Typical Homicide Summary

- **Homicide Victim & Suspect**
 - Male
 - African – American
 - 17 – 29 years of age
 - has a criminal history

Counting Homicides: Temporal Analysis

	2016	2017	% Change
January	15	15	0%
February	4	14	250%
March	18	5	-72%
April	22	18	-18%
May	14	14	0%
June	15	25	67%
July	18	25	39%
August	27	23	-15%
September	14	15	7%
October	12	17	42%
November	12	20	67%
December	16	14	-13%
Grand Total	187	205	10%

Counting Homicides:

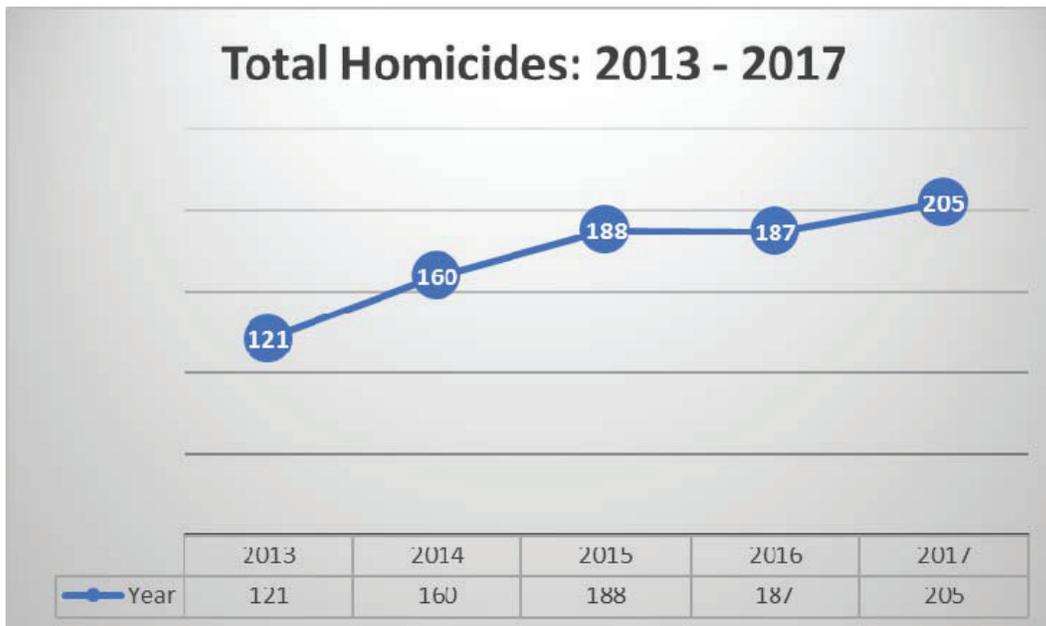

The F.B.I. Uniform Crime Reporting Program (UCR) establishes all guidelines and procedures for the submission of crime data to the State UCR Program Coordinator (State Police). Murders are counted at the time that Homicide Investigators have determined that, after investigation, an intentional killing of a human being by another has occurred.

Clearances of murders occur when at least one person suspected of committing the murder is taken into police custody for prosecution. Clearance is counted by the month that the suspect is taken into custody. While the official homicide statistics, shown in the table on this page, counts homicides by the date they were coded (for example, if a person is fatally injured in one year, but succumbs to their injury in the following year, the homicide is officially counted in the year of death, and not the year of injury), the remainder of statistics in this report will not reflect those numbers, but rather only reflect those murders that *occurred* within that calendar year.

It is important to understand that UCR allows adjustments (e.g. clearances, reclassification, unfounded, etc.) from previous submitted months to be made the month that the adjustment becomes known to police.

Counting Homicides: Temporal Analysis

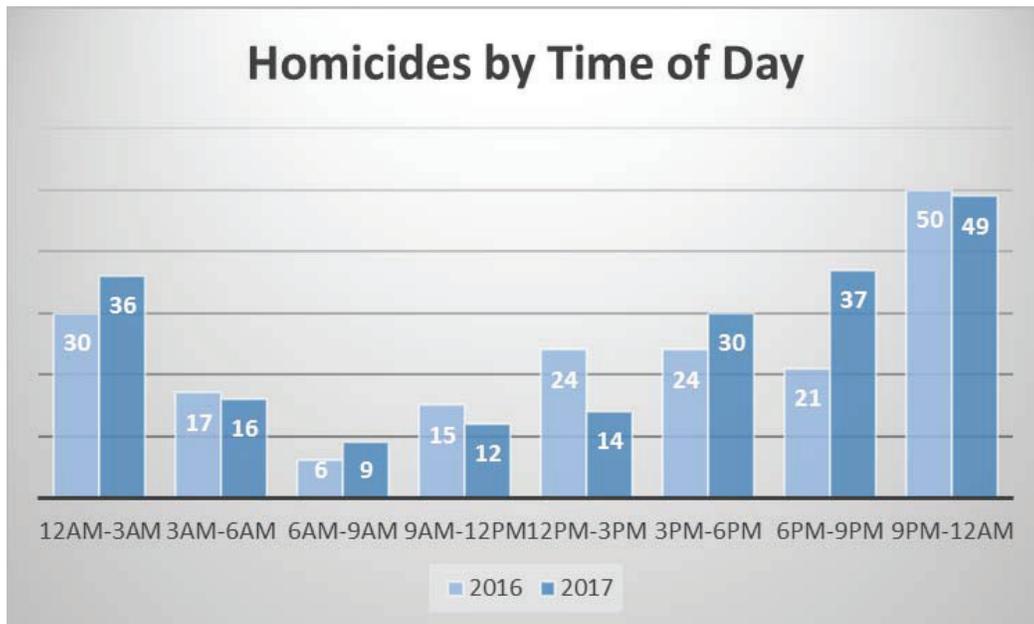

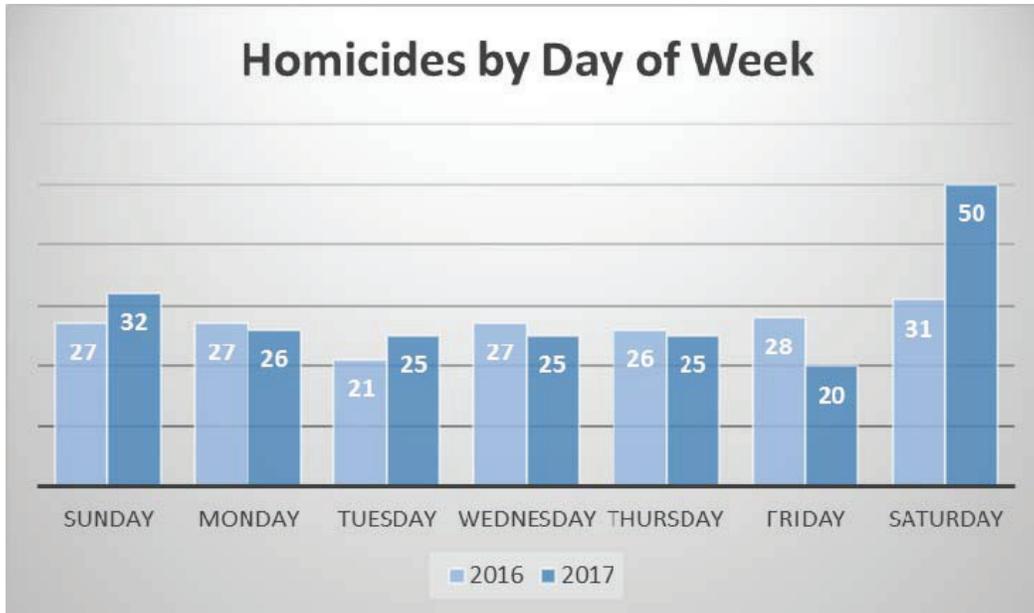

RECAP

- The graphs above show the monthly, and annual, City of St. Louis homicide numbers since 2013.
- Crime victims may succumb to their injuries months or years after the incident data. These figures include those victims who were injured in one year and died in another.
- While many crimes show seasonal changes, in the City of St. Louis, it does not appear that seasonality has direct effects on homicide.

Counting Homicides: Temporal Analysis

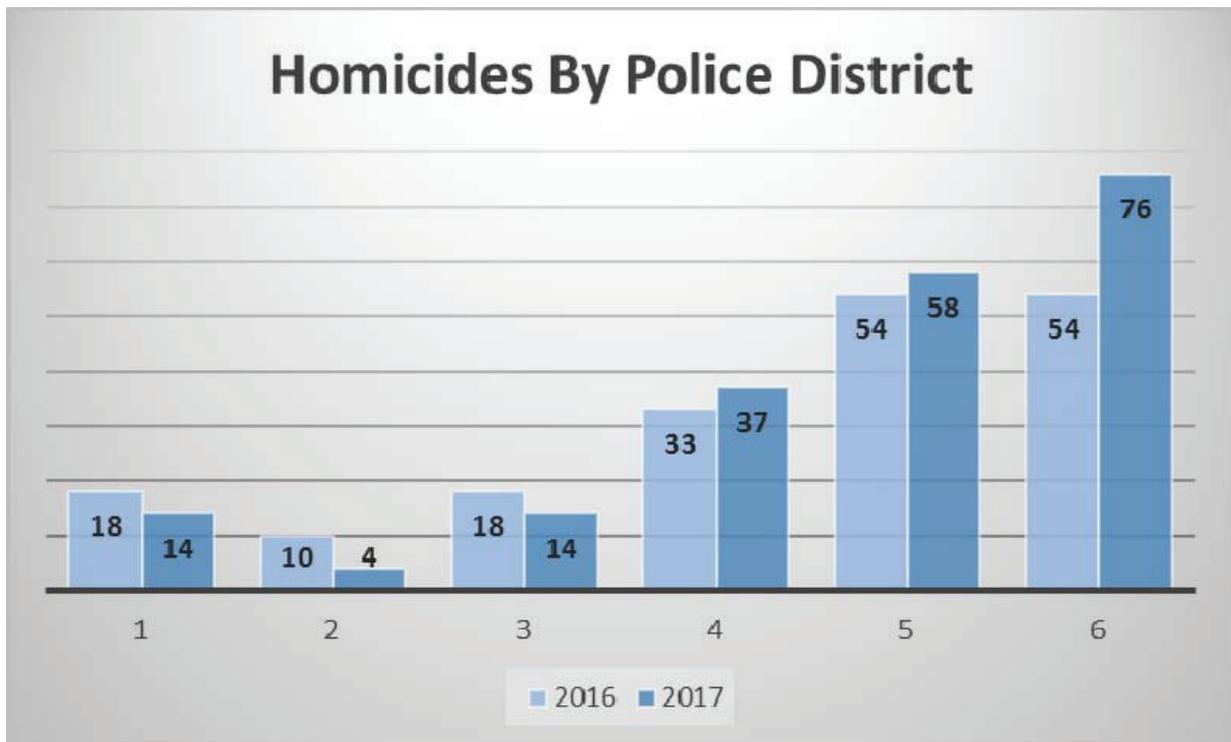

- While we are able to look at homicides by both the date the offender was arrested, regardless of when the homicide occurred (Month Coded), and by the date the homicide occurred, regardless of when the arrest was effected (Date of Occurrence) the official statistics, per UCR rules, are the Month Coded numbers.

RECAP

- Unlike previous years, Saturday stood out as a particularly violent day this year.
- There is a clear pattern when it comes to time of day, with the period between 9 pm and 3 am being the most likely hours for a homicide to occur, totaling 42% of this previous year's homicide.

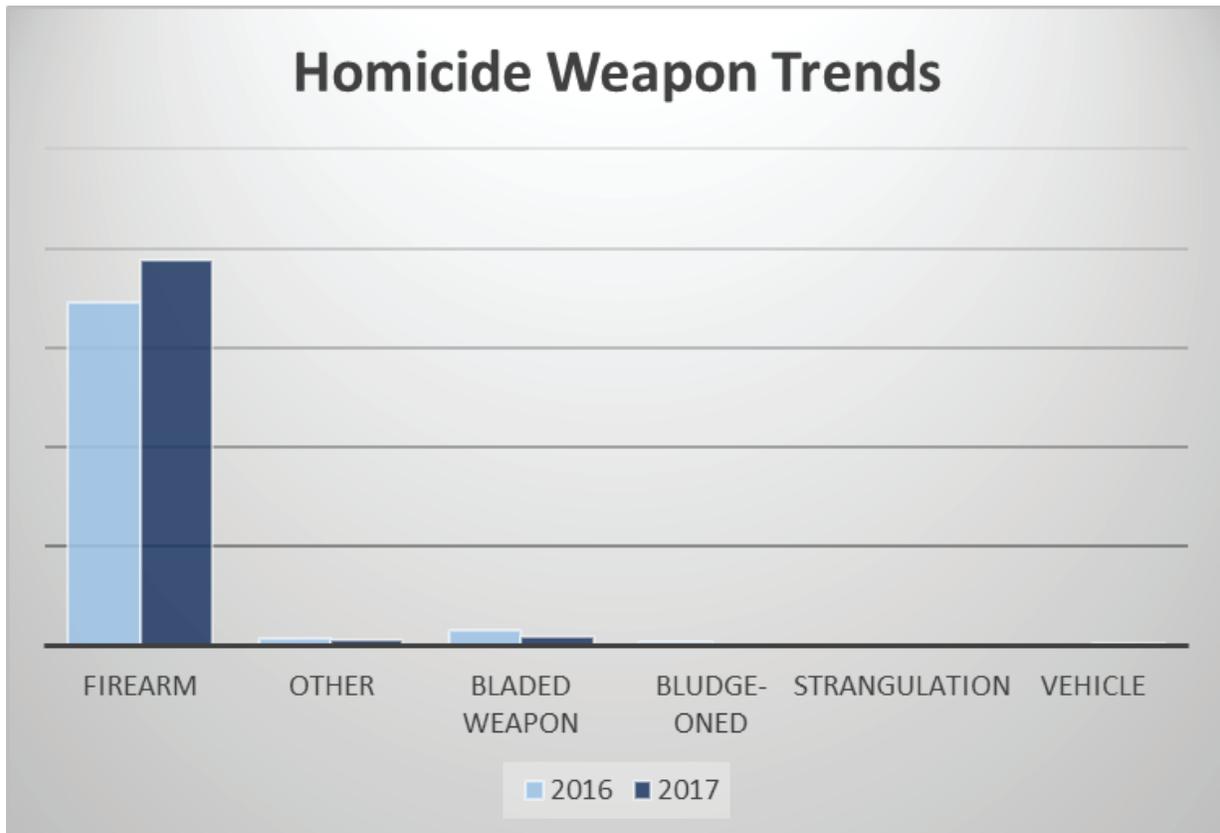

The Geography of Homicide

RECAP

- The number of homicides per District remains consistent from year to year within each District, though the 2nd District had a large decrease (relatively) while the 6th District rose quite a bit in 2017.

Weapon Analysis

	2016	2017	% Change
FIREARM	173	194	10.82%
OTHER	4	3	-33.33%
BLADED WEAPON	8	5	-60.00%
BLUDGEONED	2	0	100.00%
STRANGULATION	0	0	0.00%
VEHICLE	0	1	100.00%

RECAP

- The graph and table above show City of St. Louis homicide trends as they related to weapons used from 2016 and 2017.
- Most of the homicides were committed with a firearm.

Gang Involvement: Homicide Victims and Suspects

RECAP

- Known gang involvement is low for both victims and suspects.
- Gang involvement hovers around 10% for both victims and suspects and has for several years.
- This graph ONLY represents those that have a known and documented gang affiliation, and does not include any informal or non-"gang" groups or crews, which have become more common in recent years.

Victimology: Age, Gender, Race/Ethnicity, & Toxicology

Race/Ethnicity of Homicide Victims

Victims were largely MALE, with 84-86% of victims over the previous two years being MALE.

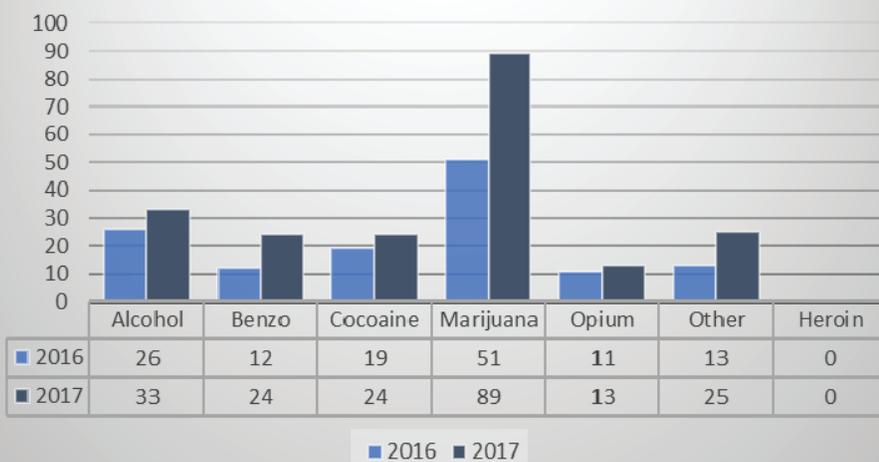

Victims were also largely City residents with 70-74% being from the City.

As the tables show, victims were largely African-American as well.

Average AGE varies widely. In 2012 it was 30, while in 2013 the average age was only 19, in 2014 it was 29, and in 2015 it was 30. In 2016 & 2017 it was up to 32.

47-73% of victims were under the influence of some substance in 2016 and 2017.

Toxicology of Homicide Victims

Victimology: Age, Gender, Race/Ethnicity, & Toxicology

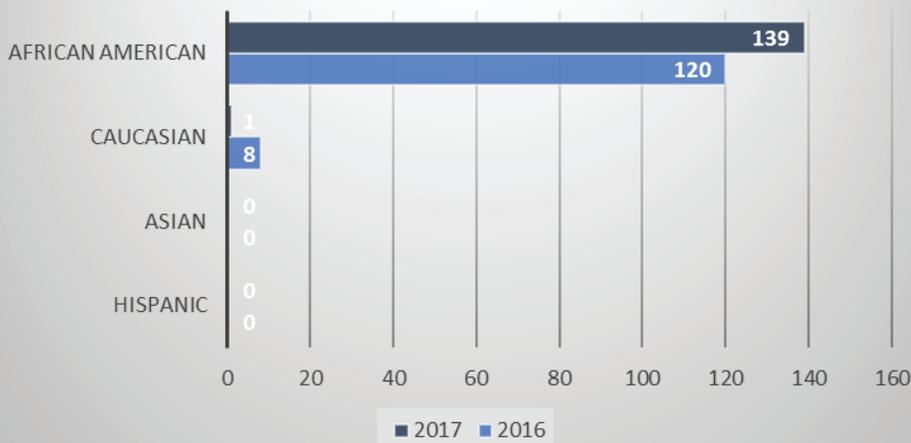

RECAP

- Over 90% of homicide victims in both 2016 and 2017 had a criminal history.

Suspectology: Age, Gender, Race/Ethnicity, & Toxicology

Race/Ethnicity of Homicide Suspects

Suspects were largely MALE, with 99% in 2016 and 98% in 2017 being MALE.

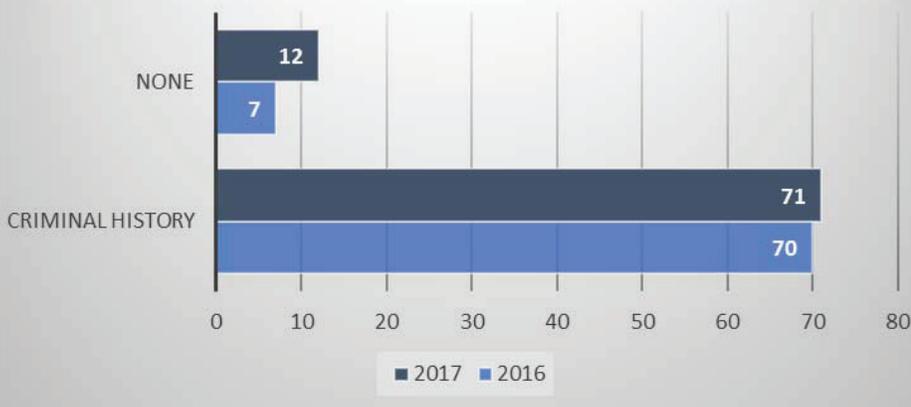

As the tables show, victims were largely African-American as well.

Average AGE doesn't vary as widely in Suspects as it does with Victims. In 2013, it was 31, while in 2014-2016 the average age was 28. Average age was 31 in 2017.

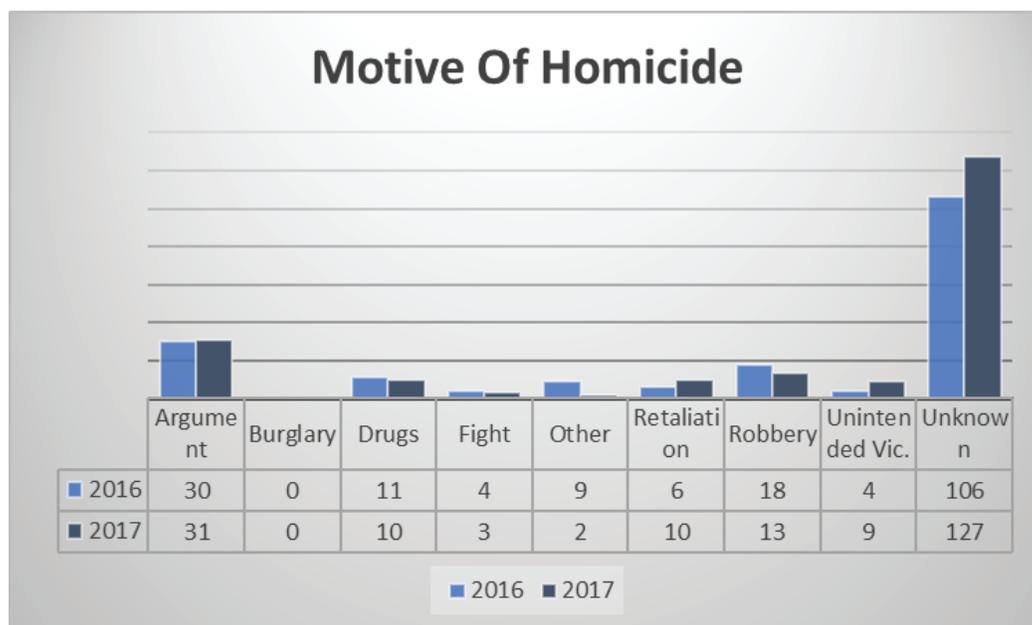

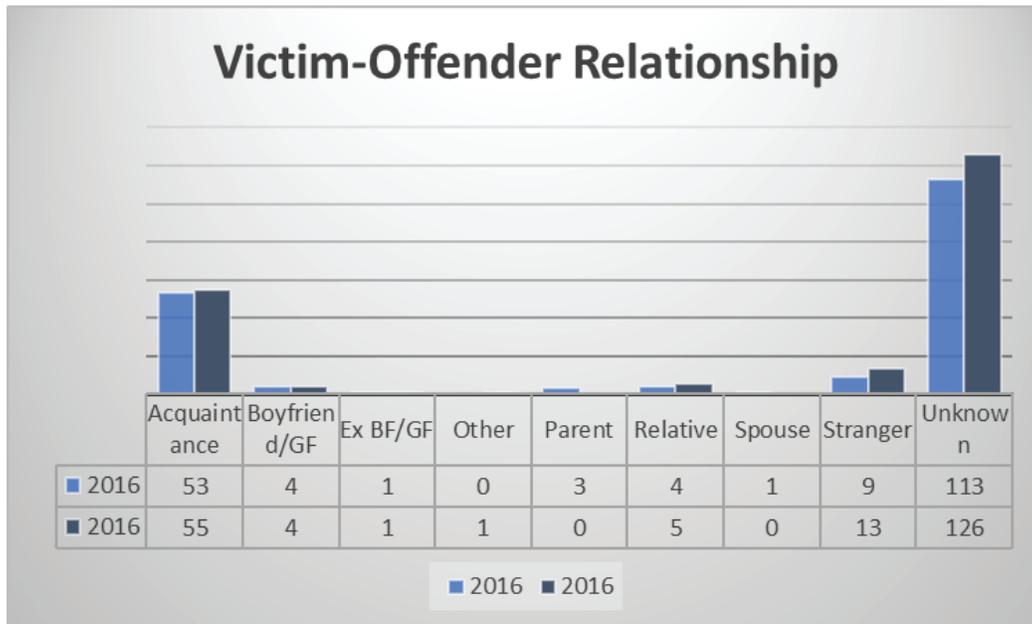

Toxicology cannot be determined on Suspects as most are not arrested at the time of the incident.

Suspect criminal history was 91% in 2016 and down to 85% in 2017.

Criminal History of Known Homicide Suspects

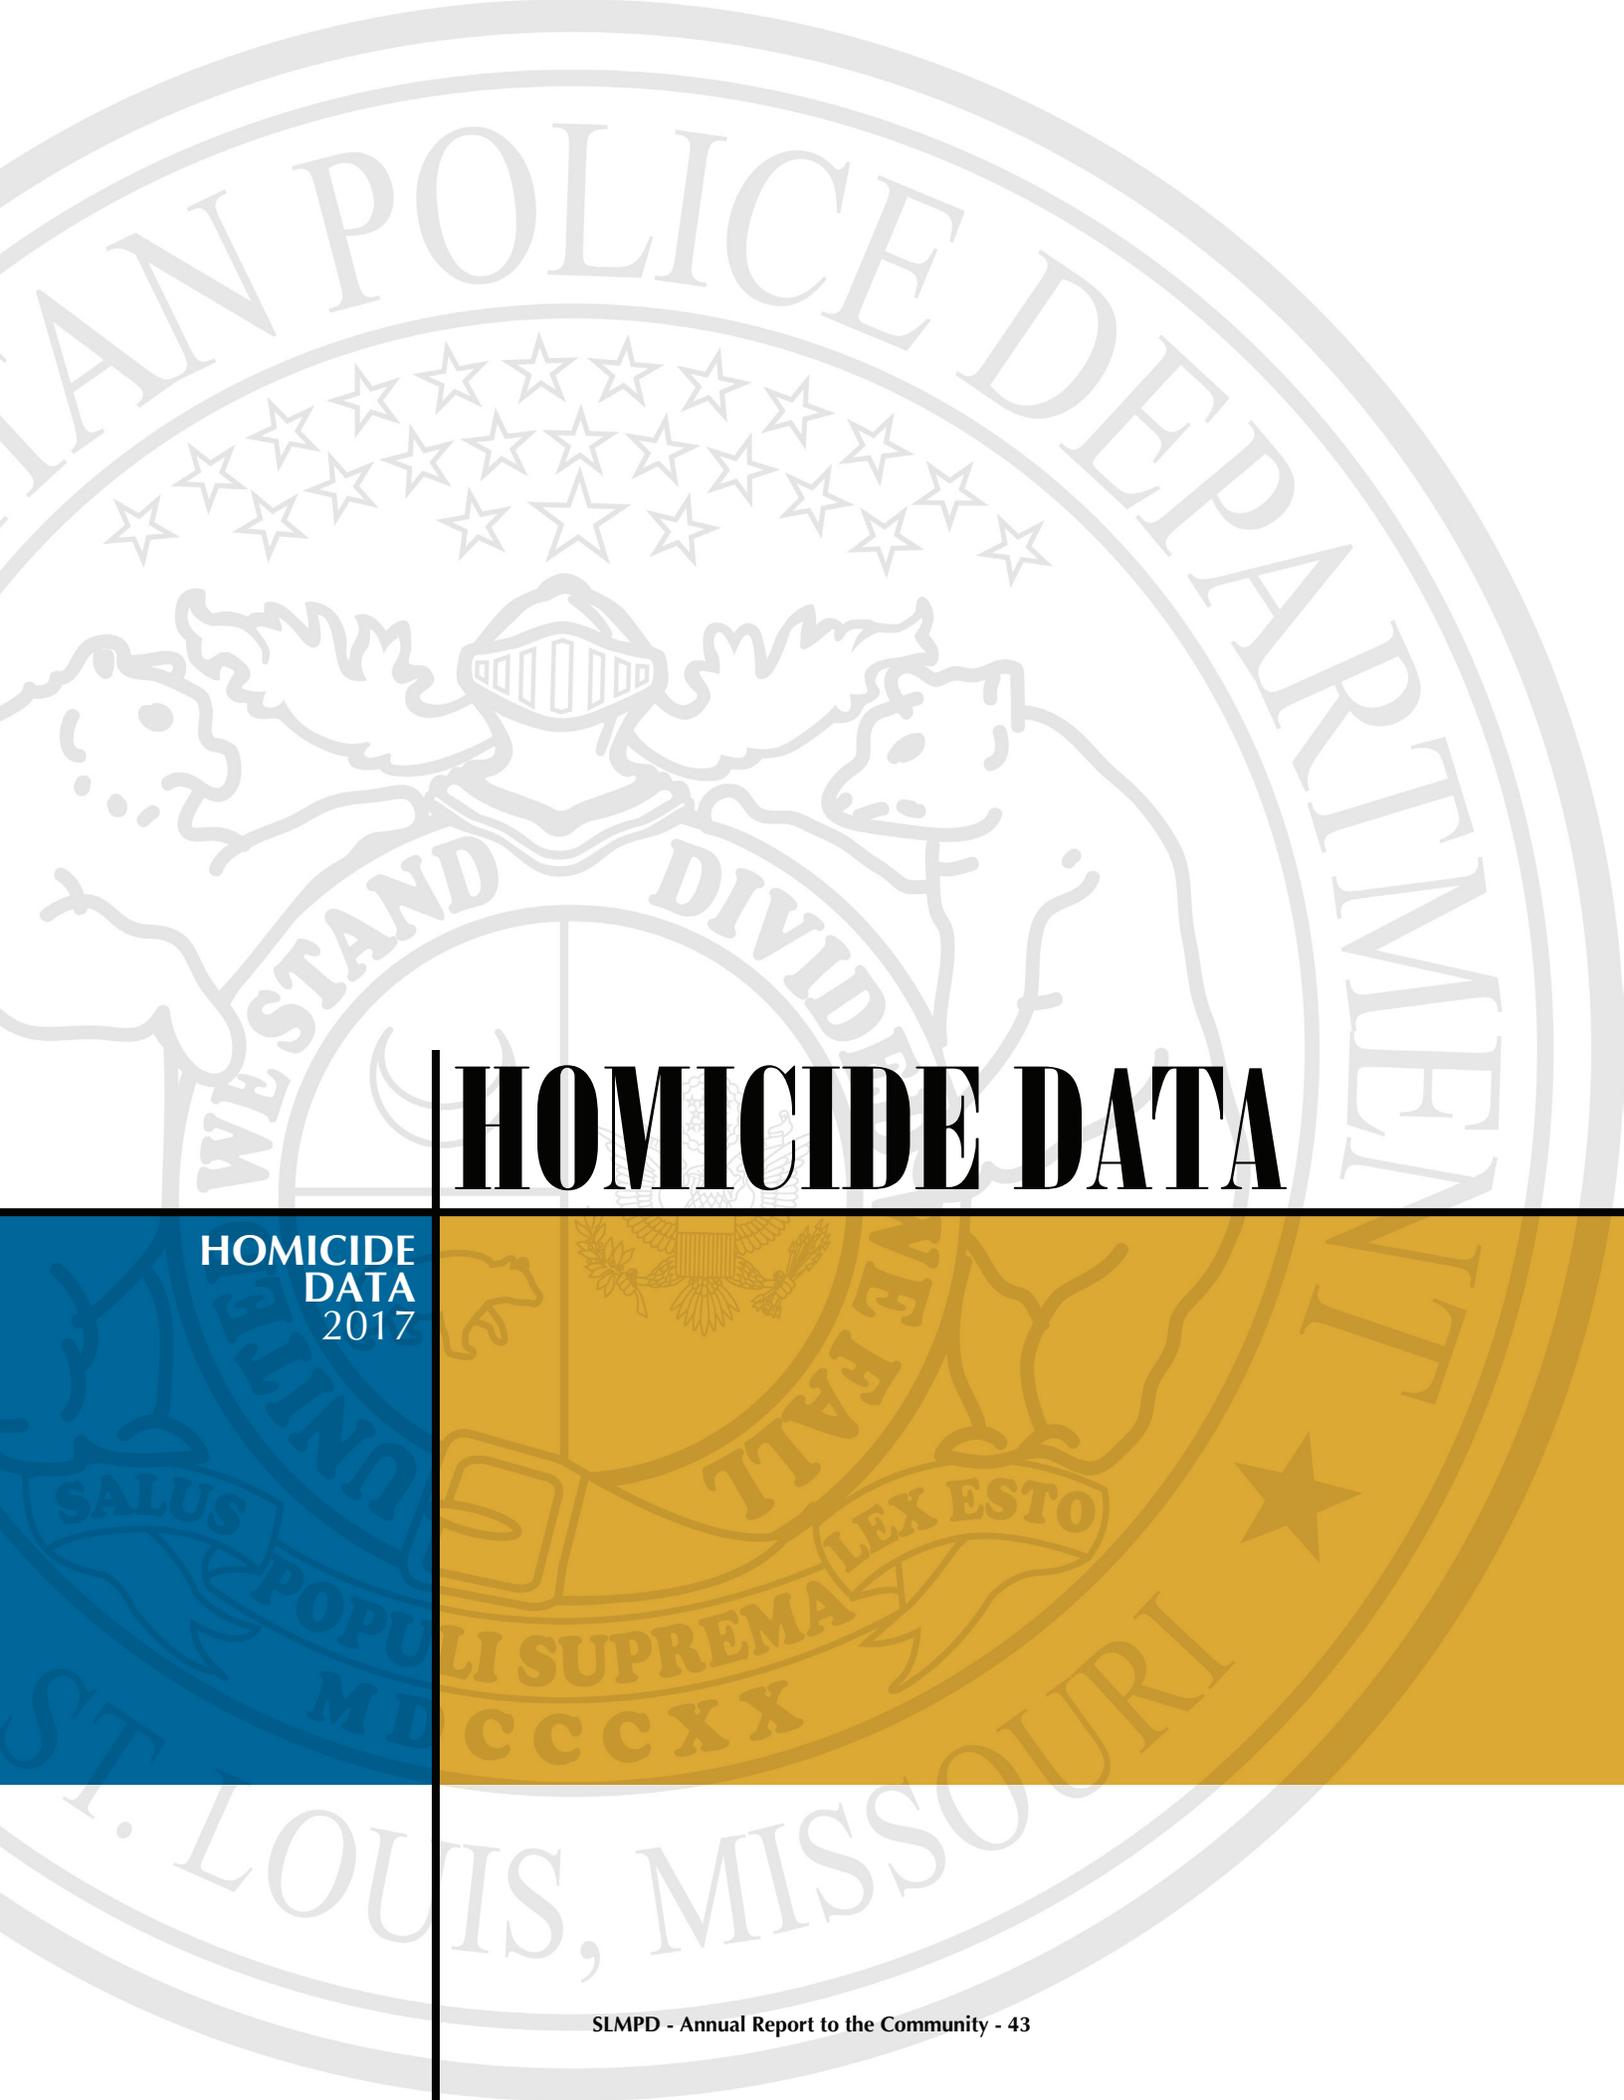

Victim/Offender Relationship & Homicide Circumstances

RECAP

- The Graphs above show the relationship between victim and offender and the motive of the homicide, when known. Most are unknown as many are unsolved, and even when cleared, motives and relationships do not always present themselves clearly.
